श्रीमती राधाबाई सारडा आर्ट्स कॉमर्स अँड सायन्स महाविद्यालय
विषय _ मराठी आवश्यक

. वर्ग बीए भाग 2

(PSOs)

प्रस्तावना

‘मातृभाषा’ मानवी जीवनाचा पाया आहे आत्मप्रगतीकरण आत्मचिंतन विचाराची देवाण-घेवाण संस्कृतीची उपासना समाजातील आर्थिक राजकीय व्यवहार व्यक्तिमत्त्वाचा विकास या सर्व गोष्टींसाठी भाषेची आवश्यकता आहे मातृभाषेच्या सामर्थ्यावर अभ्यासकाला कोणत्या विषयाच्या अभ्यासासाठी आवश्यक असलेली आकलन शक्ती व कौशल्य याचा विकास होण्यास मदत होते. साध्या श्रवण भाषण कौशल्यापासून ते प्रतिभा संपन्न सुजन चुलतेपर्यंत प्रत्येक क्रियेत मातृभाषेची आवश्यकता आहे मातृभाषेतूनच कोणत्या क्षेत्रात ज्ञान मिळवणे सुलभ जाते

मराठी भाषा अतिशय समृद्ध अशी भाषा आहे समाजाचा सर्वांगीण विकास हा या भाषेच्या माध्यमातून होतो त्या माध्यमातून विद्यार्थ्यांच्या सर्वांगीण व्यक्तिमत्त्वाचा विकास होतो भाषिक संवेदना भावना विचारशीलता भाषेच्या विविध प्रवाहाची अभिवृत्ती समाजाच्या विकासाकरता महत्त्वाचा असतो मराठी अनिवार्य अभ्यासक्रमातून वैचारिकता समृद्ध होण्यास मदत प्राप्त होते काव्य प्रकारातून सामाजिक अस्मिता अभिव्यक्त होते मराठी भाषा विद्यार्थ्यांना नव्या जाणीव नव्या प्रेरणा देणारा विषय आहे

बी ए भाग 1/2/3 मराठी आवश्यक सेम1/2/3/4/5/6 अभ्यासक्रमाची विशिष्ट निष्पत्ती (PSOs)

- १) संत गाडगेबाबा अमरावती विद्यापीठाच्या मानव विज्ञान विद्याशाखेतील बीएससी भाग एक मराठी आवश्यक अभ्यासक्रमाच्या अध्ययनामुळे विद्यार्थ्यांची साहित्य व भाषा ही संकल्पना स्पष्ट होऊन मराठी भाषा विषयक अभिरुची विकसित होईल
- २) मराठी साहित्य परंपरा लेखक कवी विचारवंत यांचा परिचय होईल त्यांचा लेखनातून आलेला सामाजिक एकात्मता सर्वधर्मसमभाव राष्ट्रीय एकात्मता आणि भारतीय राज्यघटनेचे अधिष्ठान असलेल्या मानवी मूल्यांची विद्यार्थ्यांमध्ये रुजवणूक होईल
- ३) विद्यार्थ्यांमध्ये मराठी भाषा साहित्य कला याविषयी आवड निर्माण होईल त्याची चिकित्सा तुलना समीक्षा करण्याची दृष्टी विकसित झाल्यामुळे विविध साहित्य प्रकारातील लेखनाचे योग्य अध्यायन संशोधन आणि सर्जनशील निर्मिती करतील
- ४) भाषा आणि साहित्याचा सामाजिक तसेच कलात्मक पातळीवर अभ्यास केल्याने विवेक पूर्ण तर्कसंगतता आणि करू कारुण्यपूर्ण संवेदनशीलता निर्माण होऊन साहित्याचे भाषेचे व्यवहारिक उपयोजन करता येईल
- ५) कला शाखा वाणिज्य शाखा विज्ञान शाखा या शाखेमध्ये मराठी भाषेच्या तात्विक अभ्यासासह प्रतिष्ठा पूर्ण रोजगार मिळवण्यासाठी भाषिक कौशल्य प्राप्त होतील
- ६) रोजगार निर्मितीसाठी लागणाऱ्या विविध कौशल्य निर्मितीचा दृष्टिकोन विद्यार्थ्यांमध्ये निर्माण होईल

अभ्यासक्रमाची निष्पत्ती (COs)

- १) अभ्यासक्रमासाठी नेमलेल्या पुस्तकातून व साहित्यातून जीवनदर्शन समकालीन व्यवहार जाणवा यांची माहिती होईल
- २) वैचारिक ललित कविता या विविध वांग्मय प्रकाराचे ज्ञान होईल या वांग्मय प्रकाराचे वेगळेपण जाणून घेतील तथा यामधील साम्य भेदाचे आकलन होईल
- ३) वैचारिक गद्यातून भाषेच्या सर्जनशील रूपाची विद्यार्थ्यांना आकलन होईल तसेच साहित्य विषय असलेल्या थोर व्यक्तींच्या जीवनकार्याची व त्यांच्या विचाराची प्रेरणा मिळेल
- ४) ललित कलाकृतीच्या वाचनातून आनंद बोध ज्ञान इत्यादीची प्राप्ती होऊन विद्यार्थ्यांच्या जीवन विषयक जाणीव समृद्ध होतील
- ५) वैचारिकता तात्विकता काव्यात्मकता भावनात्मकता सामान्य गोष्टीतील असामान्य तत्वाचे दर्शन यातून विद्यार्थ्यांचा दृष्टिकोन संपन्न होईल
- ६) विद्यार्थ्यांना व्याकरणिक दृष्ट्या योग्य मराठी भाषेचा वापर करण्याचे कौशल्य त्यांच्यामध्ये निर्माण करता येईल
- ७) नागरी सेवा परीक्षेच्या तयारीसाठी विद्यार्थी मराठी भाषेच्या वापरात अचूकता दाखवतील
- ८) विद्यार्थी त्यांच्या दैनंदिन जीवनातील या अभ्यासक्रमाच्या माध्यमातून विविध घडामोडींचा व त्यांच्या शिकण्यातून परस्परसंबंध शोधण्याचा प्रयत्न करतील
- ९) या अभ्यासक्रमातून विद्यार्थ्यांना मूल्य नैतिकता याची धडे मिळू शकतील आणि त्यांच्या दैनंदिन जीवनात ते प्रदर्शित करू शकतात सामाजिक जीवनात त्याचा वापर करू शक

बीए भाग 1/2/3विषय _मराठी वांग्मय

मराठी वांग्मय अभ्यासक्रमाची विशिष्ट निष्पत्ती (PSOs) program specific outcomes)

- १) संत गाडगेबाबा अमरावती विद्यापीठाच्या मानव विज्ञान विद्या शाखेतील मराठी वांग्मय अभ्यासक्रमाच्या अध्ययनामुळे विद्यार्थ्यांची साहित्य ही संकल्पना स्पष्ट होऊन मराठी भाषा विषयक अभिरुची विकसित होईल.
- २) मराठी साहित्य परंपरा लेखक कवी विचारवंत यांचा परिचय होईल त्यांचा लेखनातून आलेल्या सामाजिक एकात्मता सर्वधर्मसमभाव राष्ट्रीय एकात्मता आणि भारतीय राज्यघटनेचे अधिष्ठान असलेल्या मानवी मूल्यांची विद्यार्थ्यांमध्ये रुजवणूक होईल.

- ३) विद्यार्थ्यांमध्ये साहित्य व कला याविषयी आवड निर्माण होईल त्यांची चिकित्सा तुलना समीक्षा करण्याची दृष्टी विकसित झाल्यामुळे विविध साहित्य प्रकारातील लेखनाचे योग्य अध्ययन संशोधन आणि सर्जनशील निर्मिती करतील.
- ४) भाषा आणि साहित्याचा सामाजिक तसेच कलात्मक पातळीवर अभ्यास केल्याने विवेक पूर्ण तर्कसंगतता आणि कारण या पूर्ण संवेदनशीलता निर्माण होऊन साहित्याचे आणि भाषेचे व्यावहारिक उपयोजन करता येईल.
- ५) साहित्याच्या विद्यार्थ्यांमध्ये सही मराठी साहित्याच्या अभ्यासासह प्रतिष्ठा पूर्ण रोजगार मिळवण्यासाठी कौशल्य प्राप्त होतील.
- ६) रोजगार निर्मितीसाठी लागणाऱ्या विविध कौशल्य निर्मितीचा दृष्टिकोन विद्यार्थ्यांमध्ये निर्माण होईल.

मराठी वाङ्मय अभ्यास पत्रिकेतील निष्पत्ती (Cos)

- १) मानव जीवन समृद्ध करणारे या वाङ्मय प्रकाराचा परिचय विद्यार्थ्यांना होईल
- २) विद्यार्थ्यांना साहित्य वाचनातून लिहिण्यातून आनंद मिळतो
- ३) विद्यार्थ्यांमध्ये साहित्यिक जाण निर्माण झाल्यामुळे कविता इतर साहित्याला दात देण्याची क्षमता त्यांच्यामध्ये निर्माण होते.
- ४) साहित्यिक म्हणून लघुकथा कादंबऱ्या चरित्र आणि आत्मचरित्र यांची वैशिष्ट्ये विद्यार्थ्यांना समजतात
- ५) भारतीय कवींनी वापरलेले तसेच इंग्रजी वाङ्मयातील काव्यात्मक शब्द लेखन आणि काल्पनिक शब्द या विद्यार्थी फरक करतात
- ६) भारतीय आणि परदेशी लेखकांच्या कथांच्या कथनातील फरक विद्यार्थी शोधू शकतात
- ७) साहित्याच्या विविध प्रकारांना साहित्यिक सज्ञा आणि सिद्धांत लागू करण्याची विद्यार्थ्यांमध्ये क्षमता निर्माण होते

Sem III

- १) विद्यार्थ्यांना साहित्य वाचनातून लिहिण्यातून आनंद मिळतो

Sem IV

- १) विद्यार्थ्यांना सार्वभौमिक मूल्यांची चांगली समज निर्माण होते आणि ते जीवनातील विविध परिस्थितींमध्ये लागू करू शकतात

- २) विद्यार्थी निबंधांचे साहित्यिक स्वरूप आणि विश्लेषणात्मक निबंधाचे विविध स्वरूपाचे परीक्षण करू शकतात
- ३) विद्यार्थी विविध साहित्यिक संज्ञा आणि विद्यार्थ्यांचे विश्लेषण करतात आणि त्यांच्या वाचनाशी त्यांचा संबंध जोडतात.

Sem V

- १) विद्यार्थी शोकांतिका विनोदी नाट्यमय विडंबन आणि ऐतिहासिक ठिकाणांची वैशिष्ट्ये नोंदवून शकतात आणि वेगळे करू शकतात
- २) मांडव पंथ वारकरी पंथ अशा विविध पंथांचा अभ्यास करू लागतात तसेच महाराष्ट्रातील संस्कृतीचा परिचय विद्यार्थ्यांना होतो
- ३) मराठीमधील पहिले गद्यग्रंथ पहिला काव्यसंग्रह पहिली कवयित्री यांचा परिचय विद्यार्थ्यांना होतो
- ४) मराठीच्या उत्पत्ती विषयक ज्ञान वाङ्मयाच्या विद्यार्थ्यांना होते
- ५) भाषा विज्ञानाचा अभ्यास करून विद्यार्थ्यांना मराठी वाङ्मयाचा व भाषेच्या ध्वनी शब्द पदांतर स्वंसनानंतर असा अभ्यास विद्यार्थी करू शकतात

Sem VI

- १) विद्यार्थ्यांमध्ये समीक्षण करण्याची क्षमता वाढीस लागते
- २) मराठी साहित्याची पूर्वपिटिका विद्यार्थ्यांना समजून देणे
- ३) विद्यार्थ्यांना मराठी साहित्य खाली खंडांचा परिचय होतो
- ५) विद्यार्थ्यांना संत परंपरा महानुभव पंथामधील साहित्य परंपरा यांचा परिचय होतो
- ६) सांस्कृतिक पार्श्वभूमी विद्यार्थ्यांना साहित्याच्या वाचनातून लक्षात येते

Faculty: - Humanities

Programme: B.A.

POs:

PO1. Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

PO6. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

PO7. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes Sample POs of PG Programmes

PSOs: of BA History

PSO1: Analyze the Socio-Political and Cultural background of the Indian History.

PSO2: Examine various perspectives of history and historiography.

PSO3: Prepare for Competitive Examinations like UPSC, MPSC, and SET/NET etc.

PSO4: Compare various concepts in Social Studies through the Indian History.

PSO5: Describe the developments of mankind

B.A. I (Semester I)

History of India from Early to 700 A.D

Course Outcome (COs)

- 1: Survey the sources of History of Ancient India.
- 2: Describe the social, economic, religious and institutional bases of Ancient India.
- 3: Analyse development of the concept of Nation- State background of political history.
- 4: Study ancient Indian Art & Architecture

On successful completion of the Course the students will be able to:

- 1: Learn the socio-political and cultural background of the Ancient Indian History.

- 2: Learn various Ancient Indian History Tourist places and Guide Tourist.
- 3: Prepare for Competitive Examinations like UPSC, MPSC, and SET/NET etc.
- 4: Understand various concepts in Social Studies through the Ancient Indian History.
- 5: Learn developments of mankind.

B.A. I (Semester II)

History of India from Early to 701 A.D to 1525 A.D.

Course Outcome

- 1: Survey the sources of History in Sultanate period of India.
- 2: Analyze the social, economic, religious and institutional bases of Sultanate period of India.
- 3: Known development of the concept of Nation- State background of political history.
- 4: Study Sultanate period of India Art & Architecture

On successful completion of the Course the students will be able to:

- 1: Learn the socio-political and cultural background of the Sultanate period of Indian History.
- 2: Learn various Sultanate period Indian History Tourist places and Guide Tourist.
- 3: Prepare for Competitive Examinations like UPSC, MPSC, and SET/NET etc.
- 4: Analyze various concepts in Social Studies through the Sultanate period of Indian History.
- 5: Learn developments of mankind Through Religious Movements.

B.A. II (Semester III)

History of India from 1526 A.D.to 1756 A.D.

Course Outcome

- CO1: Survey the sources of History of Medieval India.
- CO2: Describe the social, economic, religious and institutional bases of Medieval India.
- CO3: Analyze development of the concept of Nation- State background of political history.
- CO4: Study medieval Indian Art & Architecture

On successful completion of the Course the students will be able to:

- CSO1: Learn the socio-political and cultural background of the Medieval Indian History.
- CSO2: Learn various Medieval Indian History Tourist places and Guide Tourist.

CSO3: Prepare for Competitive Examinations like UPSC, MPSC, and SET/NET etc.

CSO4: Understand various concepts in Social Studies through the Medieval Indian History.

CSO5: Learn developments of mankind.

B.A. II (Semester IV)

History of Modern India from 1757 A.D.to 1947 A.D.

Course Outcome

CO1: Learn the colonialism in India.

CO2: Understand the social, economic, religious and institutional bases of Modern India.

CO3: Know development of the concept of Nation- State background of political history.

CO4: Study of Modern Indian development of Democracy.

On successful completion of the Course the students will be able to:

CSO1: Learn the socio-political and cultural background of the Modern Indian History.

CSO2: Learn various Modern Indian History Tourist places and Guide Tourist.

CSO3: Prepare for Competitive Examinations like UPSC, MPSC, and SET/NET etc.

CSO4: Understand various concepts in Social Studies through the Modern Indian History.

CSO5: Learn developments of mankind and respect to our Freedom Fighter.

Subject: Home-Economics

PSO of BA (Home-Economics)

PSO1: Understand the students to the field of Home-Economics.

PSO2: To create an awareness among the students about resources and their management in the family.

PSO3: To develop knowledge and skills regarding principles and methods of interior decoration.

PSO4: Develop skill regarding preparing the Bouquets and Flower Arrangements for decoration and enhance the chances of employment.

PSO5: Understand the basic concepts of nutrition.

PSO6: Gain knowledge on nutrients and nutritive value of the foods.

PSO7: Acquaint with classification of food as per functionality.

PSO8: Acquire abilities to plan diets for various diseases as well as healthy humans.

PSO9: Understand method of food preparation, enrichment, enhancement and preservation.

PSO10: Promote entrepreneurship skill.

PSO11: Introduce the students to major concepts of Human Development

PSO12: Understand various behavioural problems of child and dealing with those problems

PSO13: Understand general case of baby

PSO14: Causes and prevention of mother and child mortality.

PSO15: Understand various development of a child.

PSO16: Acquire basic knowledge of principles involved in planning of residential house.

PSO17: Learn and apply various methods and techniques of work simplification.

PSO18: Awareness about waste management and water conservation for environment protection.

Programme: UG (B.A. Home Economics)

Part A

PSOs

After successfully completion of UG course in Home Economics student will be able to - Describe the home management process and apply it in practice for planning and executing inside and outside the home. Play model role as a home maker, home manager, home Scientist, counselor as well as play a different role in different kinds. Build Confidence to create her own business and adjust in it better way. Derive certain changes in behavior and attitudes that require for effective communication and as a Entrepreneur.

Program- BA

Course/ Subject: HOME ECONOMICS - Semester-I

Title of the Course/ Subject -Family Resource Management and Interior Decoration

Objectives: This course will enable the students-

- To recognize the basic concepts home economics.
- To design a plan of home-work using management process.
- To classify the resources and decisions and use it effectively.
- To enhance the chances of reaching the desired goals through wise decisions and effective use of resources.
- To apply the course knowledge in day-to-day life.

COs

After successfully completion of course student should be able to-

- Formulate a plan of activities/programs managing and saving resources.
- Evaluate the planned activities and will be able to build better plan in coming program.
- Classify the decisions to its hierarchy for achieving a goal in future.
- Make family budget with list of items.
- Make greeting cards and sample design using colour schemes
- Quote and Name to each flower arrangement

SEM (Module) Event Management

Objectives: -

1. To Acquire the basic concept of event management
2. To design a event plan for carrying out easily and skillfully.
3. To enable event delivery and evaluation
4. To develop skills Event /planning is a source of employment and self-employment

COs

After successfully completion of module course students should be able to –

- Design Draft of event plan and follow the timeline
- Do job work in event planning industry as well as play a role of Event manager after well-practiced
- Identify best practice in the development and delivery for successful event.
- Enhance the scope for bringing understandings into event planning practices

Program- BA

(Laboratory/Practical/practicum/hands- on/Activity)

Course/ Subject: HOME ECONOMICS - Semester-I

Title of the Course/ Subject - Family Resource Management and Interior Decoration

COs-

After successfully completion of practical course student will be able to-

- Draw a design for colour schemes.
- Apply the practical knowledge of colour schemes for rangoli and flower arrangement.
- Do and demonstrate types of flower arrangements.
- Take order of flower decoration.

Program- BA

Course/ Subject: HOME ECONOMICS - Semester-II

Title of the Course/ Subject - Family Resource Management and Interior Decoration

Objectives: -

- To realize the basic concepts of housing
- To design a plan of different arrangements in home Decoration
- To modify the home simply using this course knowledge.
- To demonstrate the principles of housing
- To develop aesthetic sense of students.

COs

After successfully completion of course student can-

- Formulate a plan of arrangements to modify home decoration.
- Classify and arrange the items using principles of housing.
- Design plan of work/ activities by acquiring knowledge of Work Simplification
- Make carrier in the field Interior Decoration and designing.
- Apply and guide ergonomics' technique for comfort physique.

SEM (Module) Interior Decoration

Objectives: This Module will enable the students-

- To describe the basic concept of Interior Decoration
- To design art draft skillfully.
- To inspire the students to choose their carrier in this field
- To apply the knowledge in their carrier advancement

COs

After successfully completion of module course student should be able to-

- Design a Draft plan of interior decoration on gain knowledge.
- Match all the arrangements in order to relation in home space and area.
- Enhanced their Skills in this field for carrier advancement.
- Open his/her self- enterprise all industry, applying the respective course knowledge.

(Laboratory/Practical/practicum/hands- on/Activity)

Course/ Subject: HOME ECONOMICS - Semester-II

Title of the Course/ Subject - Family Resource Management and Interior Decoration

COs-

After successfully completion of practical course student will be able to-

- Draw a design on clothes.
- Apply the practical knowledge for making block printing sample
- Create carpet designs applying motifs

- Decorate their own home by applying the practical course knowledge.
- Enter in this field doing self-enterprise.

Course Outcome of BA Part II Food Science and Nutrition

CO1: Functions of food, classification, sources, functions, requirement, deficiency symptoms of nutrient.

CO2: Understand the major five food groups.

CO3: Understand balanced diet, formulation of balanced diets according to requirement of lactating and pregnancy.

CO4: Principles, types of therapeutic diets and role of dietitian.

CO5: Causes, symptoms and dietary treatment for the diseases related to digestive system and liver.

CO6: Traditional and modern food preparation.

CO7: Meaning, Principles and methods of food preservation.

CO8: Effects of food adulterants on human life.

Course Outcome of BA Part III (Human Development)

CO1: Reproductive System Male and Female

CO2: Understand prenatal development and factors affecting prenatal development.

CO3: Premature babies and their care and problems of childhood and immunization.

CO4: Meaning and laws of heredity and types of environment. Importance of environment in development of child.

CO5: Factors influencing growth and development.

CO6: Merits and demerits of discipline and significance of punishment and rewards.

CO7: Motor, speech, social, emotional development of child.

CO8: Parent-child relationships

CO9: Importance, need for desirable child rearing practices.

CO10: Importance, types of play and leadership

Department of Economics
Programme Specific Outcomes

- PSO1- To study economics theories and principles and see their applications.
- PSO2- Understand and study the Indian economics.
- PSO3- Understand and study the Maharashtra's economics.
- PSO4- Understand and study monetary policies of India.
- PSO5- Determine economic variables including inflation, unemployment, poverty, Indian population and balance of payment.
- PSO6- Understand the money markets and making Investment decisions.
- PSO7- Understand the function of the Banking system.
- PSO8- Understand the commercial Bank and Central Bank.
- PSO9- Understand the function and working system of ATM, Credit Card and E-Banking.
- PSO10- Understand the role of Indian population growth.
- PSO11- Understand the causes of increasing the population and its effect.

B.A. - SEM(I)

Course - Micro Economics

Course outcomes - On completion of the course, student are able to understand -

- CO1- Aware about fundamental concepts of economics.
- CO2- Understands economic approach.
- CO3- Know role of market in real life.
- CO4- Understands the theory of monopoly and monopolistic competition.
- CO5- Understand the theories of rent, wages, interest and profit.

B.A. - SEM(II)

Course - Economy of Maharashtra.

Course outcomes - On completion of the course, students are able to understand -

- CO1- Understand nature of Maharashtra economy.
- CO2- Understand population and economic development.
- CO3- Understand the causes of farmer's suicides.
- CO4- Understands infrastructure and economic development.
- CO5- Understand role of agriculture in Maharashtra economy.

B.A. - SEM(III)

Course-Macro Economics

Course outcomes - On completion of the course, student are able to understand

- CO1- Understand macro economics concept.
- CO2- Understand of National Income.
- CO3- Understand of employment theories.
- CO4- Understand the consumption and investment functions.
- CO5- Understand concept of inflation and deflation

B.A. – SEM (IV)

Course-Banking

Course outcomes - On completion of the course, student are able to understand-

- C01- Aware about fundamental functions of Commercial Bank and Central Bank.
- CO2- Understand Banking system.
- CO3- Know Role of the Bank in Real Life.
- CO4- Understand the function and work of ATM, E-Banking, and Credit Card.
- CO5- Create awareness about Digital Transactions

B.A. - SEM(V)

Course - Indian Economy Development and Environment Economics.

Course outcomes-on completion of the course, student are able to understand-

- CO1-understand concept of globalization and privatization.
- CO2-understand the public expenditure in India.
- CO3-understand the concept of budget and deficit budget.
- CO4-understand the Indian agriculture sector.
- CO5-understand the concept of environmental pollution, air pollution, water pollution, water pollution and land pollution.
- CO6-understand the remedies of environmental pollution, air pollution, water pollution, water pollution and land pollution.

B.A. - SEM(VI)

Course - Demography

Course outcomes on completion of the course, students are able to understand -

- CO1- Understand the structure of Indian population.
- CO2- Understand the birthrate and death rate of Indian population.
- CO3- Understand the causes of increase the population in India.
- CO4- Understand the population policy.
- CO5- Understand the Malthus Theory of population.
- CO6- Understand the Theory of Demographic Transition.

- CO7- Understand the concept and types of migration.
- CO8- Understands the effects of migration on population.

Smt Radhabai Sarada Arts Commerce and Science College Anjangaon Surji

Syllabus Prescribed under Choice based Credit System 2022-23

Faculty: Humanities

Program: B.A. (Political Science)

Part A

POs

1: Understanding of constitution, government institutions, electoral processes and policies.

2. Knowledge of some of the philosophical underpinnings of modern politics and government.
3. Develop the ability to make logical inferences about social and political issues on the basis of comparative and historical knowledge,
- 4: Knowledge of key theories and concepts, political thoughts, organization, and modern issues in international relations.
5. Develop the analytical abilities, observational skills and decision making abilities of the students so that they will be able to face different challenges of life
- 6: Equip students with the concepts, principles, theories and processes studied in Political Science, so as to facilitate their career choices and employment.
7. Aim at shaping the students' perception and outlook on social, economic and political environment of India and beyond.

PSOs

Student of B.A.program studying Political Science as an optional subject is expected to

I: To understand the basic structure of Indian political system

- 2: To Inculcate interest in political Science
- 3: To create the leadership qualities in students
- 4: To understand Indian governing system

Employability Potential of the Program

Political Science students have the advantage of learning and knowing about government policies, rules and regulations - knowledge that is increasingly important in today's business world. Political science graduates have even chosen careers in different sector like political parties survey, media exit-pol survey, political analytical agency, personnel, marketing, advising, banking, finance, and public relations. With some work experience, you may also find yourself able to work in both the private and public sectors.

One thing you should keep in mind is that your future employer will likely be looking for people who can do the following:

- Communicate clearly, present ideas persuasively (orally or in writing)
- Argue and debate constructively and respectfully
- Negotiate and mediate conflicts successfully

- Plan, make decisions and implement them effectively
- Provide effective leadership

The study of political science can equip you with all these skills

Obtaining a Bachelor degree there are many career opportunities. Not only does it enable you to understand the nuances of local and National politics, but you also develop analytical and critical thinking skills

Equipped with these skills, you can find employment opportunities in central, state, or local government. Agencies, enter into politics, law, social services, or academia, pursue political journalism, or aim to become a civil servant/political advisor

Department of Political Science
Syllabus Prescribed for 2022-23-Year
UG Program
Program: B.A. (Political-Science)
Semester – 1

Code of the Course Subject	Title of the Course/Subject	(Total Number of Periods)
Political Science	Indian Political System	75

COs

At the end of the course the students should be able to

1. Understand and explain the significance of Indian constitution as the fundamental law of the land.
2. To know the making process of the constitution and salient features of Indian constitution.
3. Exercise the fundamental rights in proper sense at the same time identifies his responsibilities in national building.
- 4: Analyze the Indian Political System, the powers and functions of the Union, State Government in detail.
- 5: Critically analyzing the important institutions of Indian Union: The Executive: President, Vice-President, Prime Minister, Council of Ministers, State Executive: Governor, Chief Minister, Council of Ministers, The Legislature: Rajya Sabha, Lok Sabha, State Legislature, The Judiciary: Supreme Court and High Court: Composition and jurisdictions
- 6: To make conscious of the social, cultural, economic and political environment that affects politics in India, at the national as well as regional levels.

Unit	Content
Unit - I	1. Making of Indian Constitution: Constituent Assembly and its work. 2. Salient features of Indian Constitution 3. Preamble. Text and significance (periods:15)

Unit - II	1.Fundamental Rights and its Importance 2. Fundamental Duties 3. Directive Principles of State Policy (periods: 14)
Unit -III	1. President of India: Election process, Qualifications, Emoluments, Term, Powers and Functions, Constitutional position. 2. Vice-President*: Election, Qualifications, Powers and functions. (periods: 13)
Unit-IV	1. Prime Minister: Appointment, Powers & functions, Role. Council of Ministers. 2. Council of Ministers*: Formation, Role and function.(periods: 11)
Unit - V	1.Parliament: Rajya Sabha and Lok Sabha- Composition, Powers & functions 2. Judiciary. Supreme Court-Structure, Jurisdiction, Independent judiciary (periods: 12)
Unit - VI	1. President of India: Functions & Right 2. Indian Parliament: Composition & Functions(periods 10)
Cos	1: To improve knowledge and communication and presentation skill of the students. 2: To encourage the students to explore new areas relevant to the topic.
Activities	1 Seminar Marks-10 2 Assignment Marks-10

Semester II

Code of the Course Subject	Title of the Course/Subject	(Total Number of Periods)
Political Science	Indian Political System	75

COs

At the end of the course the students should be able to

1. Understand and explain the significance of Election Commission of India
2. Know the powers and role of Governor, Chief Minister & Council of Minister
3. Understand structure & powers of Legislative Assembly and Legislative Council
- 4: Explain the structure and jurisdiction of High Court and District Court
5. Know the Composition Function and Powers of Grampanchayat & Gram Sabha

Unit	Content
Unit – I	1 Election Commission Composition, powers and functions 2 Election code of conduct Periods -10
Unit - II	1 Governor: Appointment, Powers and Role 2 Chief Minister: Appointment, Role and functions. 3 Council of Ministers: Formation, Role and function (Periods – 14)
Unit -III	1. State Legislature a) Legislative Assembly b) Legislative Council- Composition, Powers & functions 2. Power and duties of Speaker and Deputy Speaker (periods:13)
Unit-IV	Judiciary: High Court- Structure and Jurisdiction 2 District court Structure and Jurisdiction (periods: 13)
Unit - V	Local Self Institution: 1.Grampanchayat composition, function and powers 2. Gramsabha composition powers and importance (periods:15)
Unit - VI	Visits to Self Government (periods 10)
Cos	1. To understand actual working of Local Self Institution 2: To realize the of team work
Activities	1. Group visit to Local self-institutions and submission of report Marks -20

**Smt Radhabai Sarada Arts Commerce and Science College Anjangaon Surji Department
of Political Science
COURSE OUTCOMES**

2022-23

Class: BA Part-II (Sem-III & IV)

Subject: Political Science

Course: Selected Constitutions & International Relations (UK , USA & China)

By the completion of this course the student will be able to

CO1 : Salient features of the constitutions of UK, Historical Background of Crown, Powers of Crown, Prime Minister: Appointment, Role and Functions, Cabinet : Structure and Functions

CO2 : Parliamentary System of UK : House of Lords & House of Commons - Composition, Powers and Functions, Role of Opposition

CO3: Salient features of Constitution of USA , President : Election Process , Powers and Functions, Cabinet: Structure and Functions, Vice-President: Election Process, Powers and Functions

CO4 : Legislature of USA: Senate, House of Representatives and Supreme Court - Composition, Powers and Functions

CO5 : SAARC: Objectives, Structure and Function

Course: Selected Constitution & International Relations Selected Constitutions (UK , USA & China)

By the completion of this course the student will be able to

CO1 : Salient features of Constitution of China (1982), National People's Congress, Standing Committee: Composition, Powers and Functions

CO2 : President of China, Prime Minister of China : Appointment, Role and Functions, State Council: Composition, Powers and Functions, Role of Communist Party

CO3 : United Nations Organization : Charter, Aims & Basic Principles, General Assembly of UNO

CO4 : Security Council of UNO: Composition and Functions, Secretary General: Appointment, Powers and Functions

CO5 : Indo – China Relations – Major Issues , Tibet Dispute, Role of China about India in UNO, Impact of Chinese goods and market on Indian Economy

**Department of Political Science
COURSE OUTCOMES**

2022-23

Class: BA Part-III (Sem-V & VI)

Subject: Political Science

Course :Modern Concepts & Policy in Politics

By the completion of this course the student will be able to

- CO1 : Leadership: Meaning, Factors and Role
- CO2 : Reservation: Meaning and Nature of Indian Reservation Policy, Reservation in Indian Parliament and Politics in India
- CO3 : Nationalism: Meaning and Nature, Factors, Present Status in India
- CO4 : Communalism: Meaning, Role and Present Status in India
- CO5 : Terrorism: Meaning and Definition, Kinds, Prevention Acts

Course: Concepts of Western and Indian Thinkers

By the completion of this course the student will be able to

- CO1: Concepts of State: Aristotle - Classification of State, M K Gandhi: Concept of Ramrajya
- CO2; Concepts of Democracy: Walter Bagehot, Abraham Lincoln
Dr B R Ambedkar – Parliamentary Democracy
- CO3: Concept of Nationalism: Niccolo Machiavelli, Swami Vivekananda, V D Sawarkar
- CO4: Concept of Socialism: karl Marx, Pt Jawaharlal Nehru, Ram Manohar Lohiya
- CO5: Concept of Behaviouralism: David Eston
Concept of post Behaviouralism: Gabriel Almond
Concept of Sovereignty: John Austin

Unit	Content
Unit - I	1. Making of Indian Constitution: Constituent Assembly and its work. 2. Salient features of Indian Constitution 3. Preamble. Text and significance (periods:15)
Unit - II	1.Fundamental Rights and its Importance 2. Fundamental Duties 3. Directive Principles of State Policy

(periods: 14)

Smt. Radhabai Sarda Arts, Commerce & Science College, Anjangaon Surji

Department of Commerce

Session: 2022-2023

PROGRAMME OUTCOME,

PROGRAMME SPECIFIC OUTCOME & COURSE OUTCOME

Faculty: Commerce & Management

Programme: Bachelor of Commerce(B.Com.)

Programme Outcomes

1. Attain requisite skills and knowledge after the completion of the programme.
2. Achieve the basic knowledge of Economics.
3. Assimilate basic knowledge of Accountancy & Statistics.
4. Efficiency in reading and writing skill.
5. Achieve requisite skills and knowledge of preparing cashbook, ledger books and balance sheet of company.
6. Become knowledgeable about marketing.
7. Create a self-employment.
8. Assimilate ethics of life.
9. Achieve Environmental awareness.
10. Attain fundamental knowledge of Computer.

Program Specific Outcomes

1. For pursuing PhD in their chosen research area.
2. To enhance the horizon of knowledge in various field of commerce through advertising and sales promotion, finance and entrepreneurial development.
3. To enhance the computer skills and its applicability in business through e-commerce principles.

4. Train the students on teamwork, lifelong learning and continuous professional development.
5. Prepare the students to apply Statistical methods and proficient use of tools for modeling and analysis of business data.

Course Outcomes

Bachelor of Commerce - Part I

Semester I

(CBCS PATTERN)

Subject :Principle of Accountancy

- 1) Student important basic accounting knowledge at applicable to business i.e. meaning of accountancy.
- 2) Able to handling account transaction
- 3) Maintaining sub subsidiary books and all types of cash books
- 4) Calculation of depreciation method of assets
- 5) Preparation of all types of final account

Subject : Principle of Business Economics

1. Application of Micro &Macroeconomic Concepts
2. Application of Utility & Indifference Curve Analysis
3. Application of Demand Pattern
4. Application of Supply and Production Pattern
5. Application of Cost & Revenue Pattern

Subject : Principle of Business Management

- 1) With this course, students will be able to have clear understanding of managerial functions.
- 2) Students will have the knowledge of planning process in the organization.
- 3) Students will be able to demonstrate the ability to directing, leadership and communicate effectively.

4) Students able to analyze isolate issues and formulate best control tools and techniques.

Subject : Computer Fundamental And Operating System-I

1. Get information about evolution and application of computer & its development.
2. Know about different elements of computer system.
3. Aware about different types of memory.
4. Get to know about different input devices and output devices.
5. Learn to prepare a text document with complete formatting and page setting.

Subject : Computer Fundamental And Operating System-I (Practical)

1. Prepare new document using Templates.
2. Change font size & font color
3. Change line spacing of Paragraph
4. Change case of Paragraph
5. Create Bullets, Numbering list
6. Create Subscript & Superscript
7. Decrease and Increase of Paragraph indent
8. Insert Header & Footer in document
9. Page Setup of Document
10. Insert Page break, Section break, Columns.
11. Students will learn to final Proofing and printing documents

Subject : Generic Elective :Discovery of Bharat

CO1: Survey the sources of History of Ancient India.

CO2: Describe the social, economic, religious and institutional bases of Ancient India.

CO3: Analyze development of the concept of Nation- State background of political history. CO4: Study ancient Indian Art & Architecture

CO5: Students will acquire knowledge regarding the primitive life and cultural status of the people of ancient India.

Bachelor of Commerce - Part I

Semester II

(CBCS PATTERN)

Subject : Financial Accounting

1. Rectification of Journal entry
2. Student acquire the knowledge of nonprofit organization
3. Prepare the all types of cooperative society account
4. Students should be acquired partnership firm accountancy
5. The bill of exchange contest and unconditional order to pay a create amount on as agree day.

Subject : Business Economics

1. Examine the difference between business and managerial economics.
2. Application of Discriminative nature of monopolist.
3. Application of monopolistic competition, oligopoly, and perfect competition
4. Application of demand and supply pattern of rent and wage.
5. Application of the theories of interest and profit.

Subject : Principle of Business Organization

1. To Familiar with business organization.
2. Understand the concepts related to Business policies.
3. Demonstrate the roles, skills and functions of management.
4. To diagnose and solve organizational problems and develop optimal managerial decisions.

Subject : Computer Fundamental And Operating System-II

1. Get basic introduction of Computer and mobile operating systems
2. Know concept of windows versions.
3. Create and delete file in File Explorer.
4. Know concept of modern communication and network topologies.
5. Create e-mail account and compose e-mail message.
6. Create table, utilizing existing Template provided by Microsoft and add customization on Template according to user needs.
7. Identify steps in the process and complete an activity to create a mail merge.
8. Develop the skill of power point programs.
9. Insert various graphical object on slide.

10. Add different Transition, Animation, Sound and Timing effect to Slide.
11. Run a presentation on computer screen.

Subject : Computer Fundamental And Operating System-II (Practical)

1. Know how to organize files/folder in File Explorer
2. Understand different customization setting in windows 10.
3. Create windows login Account which is necessary for Windows 10
4. Create table, utilizing existing Template provided by Microsoft and add customization template according to user needs.
5. Add header and footer to long list of pages which is crucial.
6. Complete Mail Merge process.
7. Change layout of pages
8. Create Presentation, designing slides and add different Transition and Animation effect to objects and Slide

Bachelor of Commerce - Part II
Semester III

Subject : Company Accounts

1. This course enable the students to develop awareness about company account.

Subject : Business Mathematics

1. The objective of this course is to enable the students to have such minimum knowledge of Mathematics.

Subject : Auditing

1. Apply critical thinking skills and solve auditing problems.
2. To understand the Concepts of dividend and types of dividend
3. To articulate knowledge of Fundamental Audit concepts
4. To understand the concept of Internal Check System, Audit Program, Routine Checking and Vouching Verification and Valuation of Asset and Liabilities

Subject : Monetary System

1. To understand the money and its various types & importance of money in the economy.
2. To Explain the value of money and its importance.
3. To understand the concepts of inflation and deflation & various phases of trade cycle.
4. Explain the functions money market, capital market and stock market

Subject : Information Technology & Business Data Processing-I

1. The objective of this course is to familiarize with basics of Information Technology and use of Spreadsheet Package for Business Data Processing

Bachelor of Commerce - Part II

Semester IV

Subject : Corporate Accounting

1. This course enable the students to develop awareness about corporate accounting.

Subject : Business Statistics

1. The objective of this course is to enable the students to have such minimum knowledge of Statistics.

Subject : Income Tax

1. To articulate knowledge of Fundamental Income Tax concepts
2. To apply critical thinking skills and solve Income Tax Problems
3. To apply knowledge of tax for computation of income from salary, house property and from other source and e-filing Procedure of Return of Income.
4. To enhance understanding Tax Planning, Advance Tax, Permanent Account Number (PAN) & Tax Deduction at source (TDS)
5. To gain knowledge about Structure of income Tax Authority & their powers

Subject : Indian Financial System

1. To understand the Indian financial system and importance in Indian economy.
2. To understand the Indian banking and various concepts of banking.
3. To explain various function of central bank, commercial bank and there importance in

the economy.

4. To explain functions of stock market & its importance in the economy.

Subject : Information Technology & Business Data Processing-II

1. The objective of this course is to familiarize with basics of Database, Database management System and use of Accounting Package for Business Data Processing

Bachelor of Commerce - Part III

Semester V

Subject : Cost Accounting

1. This course exposes the students to the basic concepts and tools used in Cost Accounting.
2. To provide an understanding of the applications of Cost Accounting techniques for determination of cost of production.

Subject : Business Environment

1. The contents herein intend to develop the ability to understand and interpret sector wise business environment of India.

Subject : Business Regulatory Frame work

1. To help the students to understand the concept of business Laws and it's applications in business regulation.

Subject : Indian Insurance System I

1. To provide an insight into the working of Insurance Industry.

Subject : Indian Banking System-I

1. To provide insight into the various types of banks and their role in Indian Economy.

Bachelor of Commerce - Part

III Semester VI

Subject : Management Accounting

1. This course exposes the students to the basic concepts and tools used in Management Accounting.
2. To provide an understanding of the applications of Management Accounting techniques for management decision making.

Subject : Economics of Development

1. To provide an insight into various growth models and their applicability in present scenario.

Subject : Company Law

1. To impart basic knowledge of the provisions of the Companies Act
2. To impart students with the knowledge of fundamentals of Company Law and provisions of the Companies Act.
3. To apprise the students of new concepts involving in company law regime.
4. To acquaint the students with the duties and responsibilities of Key Managerial Personnel.
5. To explain the meaning and nature of share, debenture, capital and their type.

Subject : Indian Insurance System II

1. To provide an insight in to the regulating and functioning of Insurance Business.

Subject : Indian Banking System II

1. To provide insight into the various functions of retail banks and associated procedural aspects.

PROGRAMME OUTCOME, PROGRAMME SPECIFIC OUTCOME & COURSE OUTCOME

Subject: BOTANY

Programme Specific Outcomes (PSO)

PSO1: Provide knowledge of the morphology, anatomy, Physiology and molecular biology of plants and also medicinal plants & Wild edible plants of Anjangaon region to the students and promote them to use them as earning source.

PSO2: Motivate the Botany students for exploration of flora.

PSO3: Preserve the rare medicinal plants.

PSO5: Create awareness about plant propagation, Cultivation of medicinal plant & Environment awareness

PSO6: Develop ethnomedicinal plant nursery and botanical garden for the students of Botany and various stakeholders.

Course Outcomes (Cos)

Course : Diversity of microbes, Phycology, Mycology and Phytopathology

CO1: Understand microbial diversity, reproduction and economic importance.

CO2: Differentiate the microbes, algae and fungi on the basis of morphology, cellular organization, nutrition and metabolic activities.

CO3: Classify and identify the various algal genera.

CO4: Classify and identify the various fungal genera.

CO:5 Systematize the plant diseases and their pathogens.

CO6: Apply understanding of microbial diversity, phycology and mycology for teaching primary to high school students.

CO7: Identify and classify the algae on the basis of morphology and other characters.

CO8: Create monograph of Algae and Fungi.

CO9: Demonstrate the structural details of viruses and bacteria included in practical work.

CO10: Evaluate the plant diseases of local plants and diagnosed the diseases on the basis of symptoms.

Course: Gymnosperm, bryophyte, petridophyte and utilization of plants

CO1: Investigation on diversity of bryophytes and petridophytes

CO2: Taxonomical and economical study of Gymnosperms

CO3: Study of plant morphology and modifications in plant organ

CO4: Understand the role of medicinal plant and food plant cultivation

CO5: Understand forms of Bryophytes, Pteridophytes and Gymnosperms.

CO6: Acquire the skill of preparation of slides of plant body and reproductive organs.

CO7: Classify and identify different plant parts on the basis of external morphology.

CO8: Describe the plants in technical language.

CO9: Develop critical understanding on morphology, botanical names and cultivation practices of economically important plants..

Course: Angiosperm systematic, anatomy and embryology

CO1: Understand the Biodiversity and its conservation.

CO2: Understand the basic principles involved in identification, naming and classification of flowering Plants.

CO3: Differentiate various tissue systems.

CO4: Understand the normal and anomalous secondary growth in plants and their causes

CO5: Develop critical understanding on embryology of Angiosperm- Reproduction in Angiosperm.

Course: Cell biology, Genetics and Biochemistry

CO1: Understand the structure and purpose of basic components of prokaryotic and eukaryotic cells

CO2: Differentiate cell organelles on the basis of structure and function

CO3: Acquire the skill Concept of genetics and Mendelism.

CO4: Have conceptual understanding of laws of inheritance, genetic basis of loci, alleles, their linkage and crossing over.

CO5: Understand the biochemistry of plants

CO6: Apply the role of enzymes in Industries

Course: Plant physiology and Ecology

CO1: Understand the physiological process occurred in plant

CO2: Differentiate the metabolic process – Photosynthesis and Respiration

CO3: Acquire the skill of Nitrogen metabolism and their role.

CO4: Understand the role of plant hormone in plant growth.

CO4: Understand the plant responses and movements.

CO5: Acquire the skill for ecological and environmental study of flora in forest ecosystem.

CO6: Investigate the effects of environmental factors in trends in succession.

CO7: Develop critical understanding on the ecological factors, Atmosphere and adaptations in plants.

CO8: : Understand the Population ecology, Community ecology and Structure, Function and Types of ecosystem.

Course: Molecular biology and biotechnology

CO1: Understand DNA as a genetic material and transposable elements in plants

CO2: Understand the Concept of gene, Expression and Regulation in plant.

- CO3: Tools and techniques of recombinant DNA technology
- CO4: Differentiate Cloning vectors and Genomic library.
- CO5: Understand the Gene transfer techniques in plants.
- CO6: Acquire the skill of Tissue culture techniques
- CO7: Apply transgenic plant role in agriculture.
- CO8: Apply role of Health care edible vaccines
- CO9: Apply role of microbes in Agriculture, Medicine, and industry.

Department of Chemistry

Session- 2022-23

Records of POs, PSOs, COs

Programme: B.Sc. CBCS (Chemistry)

POs:

At the time of graduation, Students would be able to

PO1.Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

PO2.Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

PO3. Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

PO4. Effective Citizenship: Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

PO5. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

PO6. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

PO7. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes

PSOs:

Upon completion of the programme successfully, the learners would be able to-

- 1.Understand the scope, methodology and application of modern chemistry.
- 2.Apply theoretical and practical concepts of instruments that are commonly used-in most chemistry field.
- 3.Plan and conduct scientific experiments and record the results of such experiments.

4. Get acquainted with safety of chemicals, transfer, and measurements of chemicals, preparation of solutions, and using physical properties to identify compounds and chemical reactions.

5. Describe how chemistry is useful to solve social, economic and environmental problem and issues facing our society in energy, medicine, and health.

Semester 1

Theory

COs:

By the end of this course, the students would be able to:

1. Solve the conceptual questions using the knowledge gained by studying periodicity in atomic radii, ionic radii, ionization energy and electron affinity of elements.
2. Apply concepts of acids and bases as well as non-aqueous solvents and their industrial usage.
3. Compare different reaction intermediates, functional group chemistry through the study of methods of preparation, properties and chemical reactions with underlying mechanism.
4. Choose correct synthetic approach to prepare derivatives of industrially important molecules
5. Solve different numerical problem of varying difficulty associated with gaseous and liquid state.
6. Apply the concepts from advanced mathematics to solve the derivation of different chemical formulae.

SEM:

COs:

By the end of this module, the students will be able to:

1. Create models associated with periodic table
2. Associate reaction intermediates and functional group chemistry with different types of reaction mechanisms.
3. Solve numerical problem associated with gaseous and liquid state.

Practical

COs

At the end of Lab/Practical course, students would be able to

1. Synthesise different types of organic compounds.
2. Perform the process of filtration, crystallization, melting point, waste management.
3. Understand the effect of orientation effect of a group
4. Skilfully determine the surface tension, viscosity of liquid.
5. Predict the endothermic or exothermic process from heat of solution of a salt.

Semester 2

Theory

COs

By the end of this course, the students would be able to:

1. apply the knowledge gained by studying types of bonding, solvation, hybridization and molecular geometries.
2. Draw the correct molecular structures, bond order and bond length.

3. synthesize commercially important compounds of varying carbon backbone.
4. Choose correct synthetic approach to prepare derivatives of industrially important molecules.
5. Solve numerical problems related to crystalline state.
6. Acquire skills to use chemical kinetics to develop mechanism of chemical reactions.

SEM

COs:

By the end of this module, the students will be able to:

1. Create models associated with molecular geometries, hybridization, MO diagrams.
2. Develop synthetic routes for halobenzenes and benzyl halides.
3. Solve numerical problems associated with crystalline state and chemical kinetics.

Practical

COs

At the end of Lab/Practical course, students would be able to -

1. Analyse the given organic compound qualitatively by different tests.
2. Prepare the derivative of the provided substance.
3. Illustrate the practical skills in volumetric analysis.
4. Differentiate types of titrations e.g. acid-base, redox, etc.
5. Comprehend the kinetics of reactions and interpret the experimental data.
6. Calculate, communicate and analyse the result.

Programme: B.Sc. Semester Pattern

Program Specific outcome (PSO)

PSO1: The students will have fundamental and in depth knowledge about the Chemistry.

PSO2: With this the students can opt the job in chemical and pharmaceutical industry.

PSO3: The students can also work as lab technician with precise handling and processing of chemicals.

PSO4: The students can also explore their knowledge by opting higher education in the subject to make even more promising career.

The Programme Outcomes (POs)

The under-graduate students, after completing their study of B.Sc. programme must acquire following characteristics attributes of science graduate.

PO-1 Scientific Knowledge and Experimental Skills : The graduates must be able to demonstrate fundamental concepts in science and apply it in relative specialised areas like research & development, teaching and government, social or public services.

PO-2 Communication skills : The graduates must be able to transmit complex scientific and technical information in clear and concise manner relating to all areas of science subjects he studied

PO-3 Critical Thinking & Problem Solving ability: The graduates must be able to employ critical thinking and problem solving skills find appropriate solutions for the scientific and technical problems in the field related science subjects.

PO-4 Team leading and working capability: The graduates must be capable to work independently as well as a team leader or a member.

PO-5 Project Management: The graduates must be able to identify and mobilize the appropriate resources to manage and complete the undertaken project by observing responsible & ethical conduct and also with laboratory safety and hygiene.

PO-6 Digital Proficiency to use Modern Digital Tools: The graduates must be capable to use modern digital tools like computer, software and ICT for teaching, simulating the ideas and statistical or analytical data analysis.

PO-7 Environmental and Societal Consciousness: The graduates must be aware about the environmental & the societal problems and must be capable to use and demonstrate the scientific knowledge to address these problems and to find appropriate solutions thereof

PO-8 Ethics and Human values: The graduates must be capable to think and behave rationally on the ethical issues they come across at their work place. Also, the graduates should adopt human values to keep harmony with individuals and with human beings.

PO-9 National perspective: The graduates must be able to develop national perspective for their career in the chosen field so that they could play a vital role in contributing in national development.

B.Sc. Sem.III CO

1 To explain the concept of bonding through MOT and VBT & predicts the geometry of the Covalent molecules.

CO2 Impart a broad outline of the methodology and working in the metallurgical process.

CO3 To understand the chemistry of Aldehyde and Ketones and also study of different Organic Acids and their acidic strengths.

CO4 How to use their understanding of stereochemistry of different compounds and predict the outcome of reactions.

CO5 To learnt the thermodynamical concept & important role in extraction and separation techniques used in the industrial applications.

CO6 To understand basic part of electrochemistry and most important properties of liquid state which is useful to study the physicochemical properties of liquids.

CO7 To analyse the process for the identification of organic compounds and would get expertise in Volumetric and Gravimetric Analysis.

CO8 To understand different concepts of physical chemistry through experiments. Develop skills required for the determination of surface tension, viscosity and effects of temperature

B.Sc. Sem.IV CO

CO1 To understand the physical and chemical properties of transition element and know about extraction of elements.

CO2 Study the concept of inner transition elements and know their properties and general principle of metallurgy.

CO3 Exposure to the ORGANIC chemistry of Polynuclear Hydrocarbons, Reactive Methylene Compounds and know about carbohydrates.

CO4 To understand and study of Derivatives of Benzene, Amino acids and their properties.

CO5 To gain the information about all the colligative properties of dilute solution and know to determination of molecular weight of solute.

CO6 Impart an idea about applications of solid state and Nanotechnology research field.

CO7 To study the effect of various indicators in Inorganic estimations and different types of titrations.

CO8 Develop skills required for the quantitative analysis of organic compounds

B.Sc. Sem.V CO

CO1 Impart basic ideas to categorize the coordination compounds on the basis of various theories and on the basis of electronic structure and magnetic properties.

CO2 To understand colour of coordination compounds and colour of coordination compounds on the basis of CFT and their applications in qualitative analysis.

CO3 Design the synthesis of heterocyclic compound and organometallic compounds which is required for era of medical research.

CO4 Know method of synthesis & their application of Dyes, Drugs and Pesticides in industry purpose.

CO5 Gain information about photochemistry which is very useful in the research field of photochemical reactions.

CO6 To study the basic information about molecular spectroscopy, useful tool for the structure determination of newly synthesized compound in research.

CO7 This course enables the students to acquire knowledge on the principal laboratory methodologies for the synthesis and characterisation of coordination compounds.

CO8 Conductometric and potentiometric titrations are very useful for the analysis of various compounds including pharmaceutical, inorganic, organic, etc compounds. The colligative properties are used to study molar mass, depression in freezing point and elevation in boiling point

B.Sc. Sem.VI CO

CO1 Explain the kinetic aspects of metal complexes and techniques in analytical chemistry such as spectrophotometry, colorimetry and paper chromatography.

CO2 This course deals with organometallic chemistry, inorganic polymer and bioinorganic chemistry which help students to understand the role of coordination compounds in polymer chemistry and biological process.

CO3 To know the information of electronic transition on the basis of UV-Vis Spectroscopy and identify various functional groups and structure elucidation of organic compound by IR spectroscopy.

CO4 How to determine the structure of organic molecules using Nuclear Magnetic Resonance spectroscopy and mass spectrometry which is useful in research and various industries.

CO5 Quantum mechanics is very important branch of physical chemistry. Students utilized their knowledge to study the shapes of orbital and to find out probability and probability density.

CO6 This part of the syllabus gives the information about electrochemistry and Nuclear chemistry. This knowledge is used in Pharmaceutical and nuclear industries to analyzed and synthesized compound as a alternate source of energy

CO7 To quantitatively separate organic compounds (Glycine, Phenol, Aniline, Urea from unknown sample) and to separate and identify the organic compounds using chromatographic techniques

CO8 Explain the principle behind the physical chemistry experiments performed in the laboratory and Interpret experimental results.

Department of Computer Science

Session 2022-23

Programme Outcome (POs): B.Sc. with Computer Science

B.Sc. programme aims to provide its graduates:

POs:

After completion of graduation, students will be competent to:

PO1: Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and

valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

PO2: Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

PO3: Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

PO4: Effective Citizenship: Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

PO5: Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

PO6: Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

PO7: Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes.

Programme Specific Outcome (PSOs):

At the end of this program, the students would be able to:

PSO1: Understand the computer hardware and software.

PSO2: use the knowledge of software installation.

PSO3: Select modern computing tools and techniques for programming task.

PSO4: Identify, analyze, formulate and develop computer-based solutions to meet desired needs within realistic constraints.

PSO5: Develop databases and perform operations on them.

PSO6: Identify research and development areas in multiple disciplines.

PSO7: Design and develop the small web applications.

Programme: B.Sc. Year: I (Computer Science)

Course Outcome

SEM-I:

Course Code: 1CS1

Course Name/Title: Fundamentals of Computers and C Programming

Cos:

Upon completion of this course successfully, Students would be able to -

1. Understand the computer, I/O and peripheral devices.
2. Understand concept of Operating systems.
3. Apply the Programming concepts.
4. Learn C language.
5. Write Simple C

COs:

1. To draw flowchart, learn Algorithms and write simple programs.
2. To assess the curricular skills acquired by students at college level through Assignments, Unit test, Internal Test, Group Discussion/Seminar/Mini Project, Study Tour

Course Code: 1CSLAB1

Course Name/Title: Laboratory/Practical of Fundamentals of Computer and C Programming

Cos:

Upon completion of this course successfully, Students would be able to demonstrate/perform/accomplish the following

1. Write word processing task.
2. Create worksheet and perform operations on it.
3. Design, compile and debug programs in C language.
4. Classify conditional expressions and looping statement to solve problems associated with conditions and repetitions.
5. Demonstrate the programs using arithmetic and relational operators.
6. Implement the concept of various string handling functions.
7. Classify programming components that efficiently solve computing problems in real-world.

SEM-II:

Course Code: 1CS2

Course Name/Title: Data Structure and OOPS

Cos:

Upon completion of this course successfully, Students would be able to -

1. Implement basic data structures such as arrays, stacks.
2. use linked list, trees and queues.
3. Apply Algorithm for solving problems like sorting, searching, insertion and deletion of data.

4. Describe the procedural and object-oriented paradigm with concepts of streams, classes, functions, data and objects.
5. Perform programming on functions, inline functions, constructor and destructor.
6. Perform programming on the concept of function overloading, operator overloading, virtual functions and polymorphism.

COs: 1. Acquire skill to work with core components of data structure
2. Acquire object oriented programming skill.

Course Code: 1CSLAB2

Course Name/Title: Laboratory/Practical of Data Structure and OOPs

Cos:

Upon completion of this course successfully, Students would be able to demonstrate/perform/accomplish the following

1. Perform various operations Data structure using CPP.
2. Develop the concept of dynamic memory allocation through linked list.
3. Design stack and queue with contiguous and non-contiguous data storage mechanism.
4. Perform the various operations on binary tree.
5. Implement sorting on 1-D array using different techniques.

Programme: B.Sc. Year: II (Computer Science)

Course Outcome

SEM-III

PAPER-I (Data Structure and C++)

Upon completion of this course, the student will be able to:

CO1: Should be able to analyse various algorithms.

CO2: Understand searching and sorting techniques.

CO3: Should understand stack, queue and linked list operation.

CO4: Should get knowledge of tree and graphs concepts.

CO5: Know the concepts of object-oriented programming.

CO6: Able to do implementation by using C++ programming tools.

SEM-IV

PAPER-II (RDBMS and PL/SQL)

Upon completion of this course, the student will be able to:

CO1: Understanding of the Elementary & Advanced Features of DBMS & RDBMS.

CO2: Good Practical Understanding of the SQL.

CO3: Prepare Various Database Tables using SQL Commands.

CO4: Able to Develop Structured Query Language (SQL) Queries to Create, Read, Update, And Delete Relational Database Data.

CO5: Should get knowledge of PL/SQL

CO6: Able to do implementation by using PL/SQL Programming tools

CO7: Implementation of Cursor, Triggers and Views in PL/SQL.

Programme: B.Sc. Year: III (Computer Science)

Course Outcome

SEM-V

PAPER-I (. Net Technology and Java Programming)

Upon completion of this course, the student will be able to:

CO1: Understand the code solution and compile VB project in .NET framework.

CO2: Design and develop console and windows base .NET applications.

CO3: Learn about MS.NET framework developed by Microsoft.

CO4: To develop, implement, and demonstrate Component Services, and Windows and web services.

CO5: Able to get familiar with Java programming and to learn classes and objects.

CO6: To learn programming using Java.

CO7: Able to use Java Applets

SEM-VI

PAPER-II (Advanced Java and VB.net)

Upon completion of this course, the student will be able to:

CO1: To learn and understand advance concept of Java.

CO2: Able to write program using Exception Handling.

CO3: To learn the programming using Servlets and JSP.

CO4: To learn Java Bean so as to make the reusable software components

CO5: Be able to understand use of VB.NET basics, Objects and Types.

CO6: Be able to understand ADO.NET. Understand developing, implementing and creating Applications in VB.NET and database.

Program:- B.Sc.
Subject: Compulsory English

English language plays an essential role in our lives as it helps in better communication on personal, social, literary, interdisciplinary topics and also in business world. It is the main language for studying any subject all over the world. It shall help to build up general language proficiency through listening, speaking, reading and writing, and provide the more opportunity to acquire broader information and specialized knowledge of particular subject through the English language. It is important for science students to learn English as it broadens their minds, develops communication skills and improves the quality of life by providing better job opportunities. It will perfect their communicative credentials, gain confidence, lead to achieve the goal early, make their personality effective, make them the part of global community, and enhance the opportunity of multiple career prospects. Since English is a global language used in many spheres of human life today, it has gained significance in every field. Skills and expertise acquired in usage of the language makes the students present themselves effectively and skilfully for jobs/ employment/ profession in various fields.

Course Outcome:

1. To facilitate the learners in acquiring listening and speaking competence
2. To assist the learners in independent language comprehension and production
3. To make the students aware about the different communicative functions of English.
4. To improve skills and proficiency for being employed as teachers, state government employees, civil aviation, engineering and medico-related industry, defence, commerce and taxation sector.
5. To be able to speak, write, read and listen flawlessly in person and through the electronic mode in English.
6. To understand views of others, mediate contradictory views/ disagreements, reaching conclusion in groups / group discussions.
7. To understand and use basic skills of the English language for applying it in the job assigned / employment accepted / profession undertaken.

Course Specific Outcome :

After completion of this course successfully, students would be able to

1. Understand nature and nuances of English Language used in prose lessons and poetic passages.

2. Apply the knowledge of English to communicate with others on personal, social, literary and interdisciplinary topics.
3. Compare the structure of English language to use LSRW.
4. Formulate the sentences as per situational requirement.
5. Differentiate between acceptable and unacceptable sentences in English.
6. Create appropriate, grammatically correct and acceptable sentences in English.
7. Develop general language proficiency through listening, speaking, reading and writing

Employability Potential of the Course:

English being one of the subjects only for Semester one and two in B.Sc degree restrict the students to learn English further in subsequent semesters. It is found that Compulsory English subject is given less importance and consequently the students of rural area are mostly affected and poor in their communications of English. However students who pass the B.Sc programme with English as one of the subjects in Semester one and Semester two have good opportunities of employment in education, private, semi-government, government, and industry sectors. The pass outs could get a job as per the core subject offered by them. If they develop their skills of communications, they can get the good job in their respective field. English is important for students as it broadens their minds, develops communication skills, employability skills and improves the quality of life by providing job opportunities.

English is the language of technology, agriculture, medical, aviation, computers, diplomacy, business and tourism. It is the language of international communication, the media and the internet. Whether it is for professional or personal reasons, understanding the importance of English will help the students to reach their goals. Knowing English increases the chances of getting a good job in a national and multinational company within the home country or of finding work abroad. In addition, English is increasingly used day by day in education and as a working language in many reputed companies. English is used in films, literature, songs, sports, trade, products, science and technology, and through these areas many English words and expressions have found their way into our mother tongue also. First and foremost, studying English can help the students to pursue and obtain more job opportunities. No matter what career pathway the students decide for them proficiency in English facilitates to become a better and more sought after employee.

Syllabus Prescribed for B.Sc. I Sem I Year UG Program
Program: B.Sc
Semester 1

Course Learning Outcome /CO

At the end of the Course, student would be able to:

- CO1 understand the paragraph, prose, poetry and communicative skills.
- CO2. apply the four skills of language in his daily inter-personal communications.
- CO3. formulate/ compose his own sentences and able to speak English Language.
- CO4. converse with other students in English.
- CO5. communicate their ideas, thoughts and concepts properly in English.

Course Objective:	To train and prepare the students to seek and find employment in various field. To develop communicative competence in students To impart knowledge, ideas and concepts in the technicalities of proper pronunciation, construction, appropriate use and style of the English language as well as the application in the areas of English Communication Skills. To expose the students to the employment opportunities, challenges and job roles.
Course Outcomes:	At end of the course students would be able to CO1 understand the paragraph, prose, poetry and communication skills CO2. apply the four skills of language in his daily routine. CO3. formulate/ compose his own sentences and able to speak English Language. CO4. collaborate with others students in English. CO5. communicate properly their ideas and concepts in English.

B. Sc. I Semester II Compulsory English

Course Objective:	To train and prepare the students to seek and find employment in various field. To develop communicative competence in students To impart knowledge, ideas and concepts in the technicalities of proper pronunciation, structure, appropriate use and style of the English language as well as the application areas of English Communication. To expose the students to the employment opportunities, challenges and job roles.
Course Outcomes:	<input type="checkbox"/> At end of the course students would be able to

	<p>CO1 understand the paragraph, prose, poetry and communication skills</p> <p>CO2. apply the four skills of language in his daily routine.</p> <p>CO3. formulate/ compose his own sentences and able to speak English Language.</p> <p>CO4. collaborate with others students in English.</p> <p>CO5. communicate properly their ideas, thoughts and concepts in English.</p>
--	---

DEPARTMENT OF MATHEMATICS

Programme Outcomes (PO):-

At the end of the programme, graduates would be able to

1. Enhance the knowledge of student in all basic sciences.
2. Identify, formulate and develop solutions to computational challenges.
3. Develop scientific temper and think in a critical manner.
4. Build up progressive and successful career in academics, industry and society.
5. Develop students abilities and aptitudes to apply the mathematical ideas.

Programme Specific Outcomes (PSO):-

Upon completion of the programme successfully, students would be able to

1. Understand major concepts in all disciplines of Mathematics
2. Formulate and develop Mathematical arguments in a logical manner
3. Gain good knowledge and understanding in advanced Mathematics
4. Create an awareness of the impact of Mathematics on the environment, society and development outside the scientific community.
5. Create sensitivity towards environmental concerns and contribute in the development of nation.

Employability Potential of the Programme:

Career options for B.Sc. Mathematics students is not just limited to solving complex equation. Apart from the traditional career route of academics and research, there are many career options offer for B.Sc. Mathematics students that can pick up banking, corporate, accounting and even teaching as their career option on completion of B.Sc. Mathematics, even a career in medicine and law is possible for Mathematics Honors student. Also, a degree

with Mathematics is even financially supporting for students because they help in landing placement opportunities by giving an edge over students with B.Sc. physics or other major.

After completing B.Sc. Mathematics, a student can either decide to go for higher studies or apply for jobs. In the case of B.Sc. Mathematics Honors, both the options are very promising. After the B.Sc. Mathematics course, students can pursue M.Sc. Mathematics and follow it up with an M. Phil or Ph.D. Students can become a mathematician doing research and also become an assistant professor. Also students can pursue a B. Ed. and become a school teacher. Moreover, students can work in related fields which require mathematical skills (Machine learning, Data Science etc.). Thus, there exist innumerable B.Sc. Mathematics career options.

The best way to get a prestigious government job is through competitive exams. Exams like UPSC, Railways, and Commission etc. are some important competitive exams that one needs to consider as portals for B.Sc. Mathematics career options.

Course Outcomes (CO):-

Course: (I) Algebra and Trigonometry

After completing this course, students would be able to

1. Find inverse and normal form of matrices .
2. Evaluate the characteristic equation, eigen value and corresponding eigen vector of a given matrix
3. Evaluate relation between the roots and coefficients of equations .
4. To study application of De Moivre's theorem .
5. Compute summation of trigonometric series.
6. To enhance interest among the students about course.
7. To develop the learning and writing skills.
8. To create mental ability

Course: (II) Differential and Integral Calculus

Cos: After completing this course, students would be able to

1. Define limit and study the basic properties .
2. Classify continuity and discontinuity of the functions.

3. Solve the differentiability and L'Hospital rule with their applications.
4. Describe the geometrical applications of mean value theorems.
5. Evaluate the reduction formulae for integration.
6. To enhance interest among the students about course.
7. To develop the learning and writing skills.
8. To create mental ability.

Course: (III) Ordinary Differential Equations

COs:

After completing this course, students would be able to

1. Solve first order differential equations using different techniques.
2. Solve higher order differential equations and orthogonal trajectories.
3. Calculate complementary function and particular integral of the second order differential Equation.
4. Describe the different methods to solve second order differential equations.
5. Illustrate applications of differential equations
6. To enhance interest among the students about course.
7. To develop the learning and writing skills.
8. To create mental ability.

Course: (IV) Vector Analysis and Geometry

COs:

After completing this course, students would be able to

1. Interpret the vectors, their products, differentiation and integration.
2. Determine curvature and torsion .
3. Apply the concepts of divergence, curls which are useful in physics.
4. Describe the different forms of sphere and properties.
5. Discuss the equations of cone and cylinder.
6. To enhance interest among the students about course.
7. To develop the learning and writing skills.
8. To create mental ability.

Course: (V) Advanced Calculus

CO 1 Sequence, Uniqueness and algebra of limit of sequence, positivity theorem, sandwich theorem, monotonic and bounded sequence, Cauchy sequence, Series: series of non negative terms, convergence of geometric series, comparison test, Cauchy integral test, ratio test, root test, absolute convergent conditional convergent, Leibnitz rule,, Abel's test, Dirichlet condition.

CO 2 Learn the concept of limit and continuity of function of two variables, indeterminate value property, fixed point property, Taylor's theorem for function of two variables, Maxima and minima of function of two variables, Lagrangian's multipliers method, jacobians.

CO 3 Understand the concept of double Integral, change of order of double integral, triple integral, Gauss and Stoke's theorem.

Course: (VI) Elementary Number Theory

CO 1 Understand the concept of divisibility, Division algorithm, greatest common divisor, Euclidean algorithm, least common multiple, prime number, Fermat theorem, Linear Diophantine equation.

CO 2 Learn the concept of congruence, Special divisibility test, linear congruence, Chinese remainder theorem, arithmetic function, Euler's theorem, the τ and σ function, Mobius μ function.

CO 3 Learn the concepts of primitive roots, polynomials congruence, general quadratic congruence, quadratic residues.

Course: (VII) Modern Algebra: Groups and rings

CO 1 Learn the concepts of groups, properties of a group, subgroup, cyclic groups permutation groups, cosets and normal subgroups, quotient group.

CO 2 Understand the concepts of homomorphism of groups, kernel of homomorphism, isomorphism of groups, fundamental theorem of homomorphism, natural homomorphism, second and third isomorphism theorem.

CO 3 Learn the concepts of ring, subring, characterization of ring, integral

domain, field, ideal.

Course: (VIII) Classical Mechanics

CO 1 Learn the concepts of constraints, generalized co-ordinates, D'Alembert's principle and Lagrange's equation of motion, central force motion, a real velocity, equivalent one body problem, central orbit, virtual theorem, Kepler's law of motion.

CO 2 Understand the concepts of calculus of variation, Hamilton's principle, Lagrange's equations for non-holonomic system, Routh's procedure, least action principle.

CO 3 Understand the concepts of rigid body, generalized co-ordinates of a rigid body, Eulerian angles, Euler's theorem, finite rotation, infinitesimal rotations.

Course: (IX) Mathematical Analysis

CO 1 Learn the concepts of Riemann integral, the fundamental theorem of integral calculus, mean value theorem of integral calculus, improper integral and their convergence, comparison and limit test, Beta and Gamma function.

CO 2 Learn the concepts of continuity and differentiability of complex function, analytic function, Cauchy-Riemann integral, harmonic and conjugate function, Milne-Thomson theorem.

CO 3 Learn the concepts of elementary function, mapping by elementary function, Mobius transformation, fixed point, cross ratio, inverse and critical points, conformal mapping, Metric space, limit point, interior point, open and closed sets, Cauchy sequence, completeness.

Course: (X) Mathematical Methods

CO 1 Learn the concepts of Legendre's equation, generating function of $P_n(x)$, recurrence formulae for $P_n(x)$, Rodrigue's formula, Bessel's equation, generating function of $J_n(x)$, recurrence formulae for $J_n(x)$, Sturm-Liouville boundary value problem.

CO 2 Learn the concepts of Fourier series, Fourier series for odd and even function, half range Fourier sine and cosine series, Laplace transform, inverse Laplace transform, application of Laplace transform in solving ODE and PDE. Also understand the concepts of Fourier transform, application to PDE.

Course: (XI) Linear Algebra

CO 1 Learn the concept of vector space, subspace, sum and direct sum of subspace, linear span, basis, finite dimensional vector space, existence theorem for bases, dimension, Linear transformation and their representation as matrices, rank nullity theorem, change of basis.

CO 2 Learn the concepts dual space, bi-dual space and natural isomorphism, adjoint of a linear transformation, Eigen value and Eigen vector of a linear transformation, inner product space, Cauchy-Schwarz inequality, orthogonal vectors, orthogonal complements, orthonormal sets and bases, Bessel's inequality for finite dimensional space, Gram-Schmidt orthogonalisation process.

CO 3 Understand the concepts of Module, submodule, quotient modules, homomorphism and isomorphism theorem.

Course: (XII) Special theory of Relativity (Optional paper)

CO 1 Learn the concept of Review of Newtonian Mechanics, Relativistic Kinematics

CO 2 Understand the concept of geometrical representation of space-time, Relativistic mechanics.

CO 3 Learn the concepts of electromagnetism.

Programme Specific Outcomes

After completing the programme successfully, students will be able to

- PSO 1 Acquire a comprehensive knowledge and sound understanding of fundamentals of physics
- PSO 2 Develop laboratory skills, enable them to take measurement in physics laboratory and analyze the measurements to draw valid conclusions
- PSO 3 be prepared to acquire a range of general skills, to solve problems, to evaluate information, to communicate with society effectively and learn independently
- PSO 4 Develop good oral and written scientific communication skill

**Course Outcomes
(Session 2022-2023)**

Course: Mechanics, Properties of matter, oscillations and Relativity

On successful completion of this course, the students would be able to

- CO 1: Discuss the basics concepts of rotational dynamics
- CO 2: Examine the phenomena of simple harmonic motion and distinction between Undamped, damped and force oscillation and the concept of resonance
- CO 3: Explain the superposition of simple harmonic motion and acquire the knowledge of ultrasonic waves, their production, detections and applications in different fields
- CO 4: Determine the constants of elasticity and relate it with appropriate things
- CO 5: Interpret the postulates of special theory of relativity
- CO 6: Know the concepts of Global Positioning System (GPS)
- CO 7: Apply the principal of measurements and error analysis
- CO 8: Develop the skills to handle various instruments with precision.

Course: Electrostatics, magneto statics and Network theorems

After going through this course, the students would be able to

- CO 1: Discuss the concepts of scalars and vectors and their properties

- CO 2: Develop an understanding of Gauss law and its applications to obtain electric field in different cases
- CO 3: Formulate the relationship between electric displacement vector, electric polarization and dielectric constant
- CO 4: Distinguish between magnetic effects of electric current, electromagnetic induction and the related laws in appropriate circumstances
- CO 5: Simplify electrical circuits by applying various network theorems
- CO 6: Make the use of multimeter for measurement of electrical parameters and get the knowledge of electronic components and their applications
- CO 7: Estimates the power consumption of domestic appliances and carry out energy audit.

Course: Mathematical background, Solid state electronic devices and STR

On successful completion of this course, the students will be able to

- CO 1: Gain knowledge of gradient, divergence, and laws of electrostatics and their applications.
- CO 2: Explain Maxwell's equations and pointing theorem.
- CO 3: Explain Semiconductor, semiconductor diodes and transistors
- CO 4: Understand Bipolar transistor, FET and operational amplifier
- CO 5: Interpret the postulates of special theory of relativity
- CO 6: Know Structure of earth, earthquakes and its terminologies, scattering, absorption and reflection of solar radiation and formation of clouds.

Course: Optics, Acoustics and renewable energy sources

After completing this course, the students would be able to

- CO 1: Understand Geometrical optics, interference of light, its applications
- CO 2: Apply the concept of diffraction of light to various instruments like telescope, grating
- CO 3: Explain Polarization of light, double refraction .phase retardation, blue colour of sky
- CO 4: Explain the mechanism of LASER and HOLOGRAPHY
- CO 5: Understand optical fiber communication system, its advantages and applications.
- CO 6: Know about renewable energy sources in particular mechanism of solar cell.

Course: Quantum mechanics, Atomic & molecular spectroscopy, Nuclear Physics

On successful completion of this course, the students would be able to

- CO 1: Understand the origin of quantum mechanics, wave packet, Uncertainty principal.

- CO 2: Apply Schrodinger's equations in various applications
- CO 3: Explain Vector atom model, X-rays, Raman effect
- CO 4: Interpret the mechanism of detection of charged particle by counter, Alpha decay, Betadecay, nuclear fission, fusion and nuclear reactor
- CO 5: Explain transistor amplifier and distortion in amplifier
- CO 6: Explain feedbacks in amplifier, electronic oscillators and multivibrators

Course: Statistical mechanics and solid state Physics

After completion of this course, the students would be able to

- CO 1: Apply M.B. statistics for distribution of identical distinguishable particles.
- CO 2: Apply B.E. and F.D. statistics for distribution of identical indistinguishable particles.
- CO 3: Know geometry of crystals, defects in crystal and Bragg's law in crystal
- CO 4: Explain conductivity in conductor, semiconductor and insulator
- CO 5: Distinguish diamagnetic, paramagnetic and ferromagnetic materials
- CO 6: Explain superconductors and its applications
- CO 7: Interpret nanomaterials, their properties and applications.

**PROGRAMME OUTCOME, PROGRAMME SPECIFIC OUTCOME & COURSE
OUTCOME**

Subject: ZOOLOGY

**B. Sc. Zoology
Faculty of Science and Technology**

New CBCS BSc I (2022-2023)

POs:

At the time of graduation, Students will be able to

PO1.Critical Thinking: Take informed actions after identifying the assumptions that frame our thinking and actions, checking out the degree to which these assumptions are accurate and valid, and looking at our ideas and decisions (intellectual, organizational, and personal) from different perspectives.

PO2.Effective Communication: Speak, read, write and listen clearly in person and through electronic media in English and in one Indian language, and make meaning of the world by connecting people, ideas, books, media and technology.

PO3. Social Interaction: Elicit views of others, mediate disagreements and help reach conclusions in group settings.

PO4. Effective Citizenship: Demonstrate empathetic social concern and equity centred national development, and the ability to act with an informed awareness of issues and participate in civic life through volunteering.

PO5. Ethics: Recognize different value systems including your own, understand the moral dimensions of your decisions, and accept responsibility for them.

PO6. Environment and Sustainability: Understand the issues of environmental contexts and sustainable development.

PO7. Self-directed and Life-long Learning: Acquire the ability to engage in independent and life-long learning in the broadest context socio-technological changes

PSOs

By the end of the programme, Students would be able to

1. Develop a deeper sense with respect to phylum Protozoa to Echinodermata relation to taxonomy, classification, body organization and general characteristics this strengthens students' capability in basic zoology.
2. grasp various the Systematic positions from Protozoa to Echinodermata their pathogenicity and its epidemiology.
3. describe unique characters and recognize life functions of Protozoa, Porifera, Coelenterate, Helminthes, Arthropoda, Annelida, Mollusca and Echinodermata. Improve ability and apply Knowledge of Nonchordates for its execution in Agriculture especially with the phylum Arthropoda.

4. Implement an extensive idea about economic and ecological significance of various non-chordates phylum's in human life.

Name of the programme: B.Sc. I

Class : Part I Semester :I ,

DSC -1-01S Subject Zoology

Name of the course (Paper): Life and diversity of Animals (Non-chordata)

Course Outcomes Code : COs-01

About the course: The course is a walk for the Bachelor's entrant through the amazing diversity of living organism from simple to complex. The course makes a detail comparison of the systematic study of different taxa of Non-chordate. It enlightens how each group of organisms arose and how did they establish themselves in the environment with their special characteristics. It also deals with the differences and similarities between organisms on the basis of their morphology and anatomy which led to their grouping into taxa and clades.

COs:

Upon completion of this course successfully, students would be able to

1. Develop a deeper sense with respect to phylum Protozoa to Echinodermata relation to taxonomy, classification, body organization and general characteristics this strengthens students' capability in basic zoology.
2. grasp various the Systematic positions from Protozoa to Echinodermata their pathogenicity and its epidemiology.
3. describe unique characters and recognize life functions of Protozoa, Porifera, Coelenterate, Helminthes, Arthropoda, Annelida, Mollusca and Echinodermata.
4. Improve ability and apply Knowledge of Non-chordates for its execution in Agriculture especially with the phylum Arthropoda.
5. Implement an extensive idea about economic and ecological significance of various non-chordates phylum's in human life

Name of the programme: B.Sc. I Class : Part II S Semester :II ,

DSC-2-02S Subject Zoology

Name of the course (Paper): Life and diversity of Animals (Chordata) and concept of Evolution

Course Outcomes Code : COs-02

About the course : The course is a walk for the Bachelor's entrant through the amazing diversity of living organism from simple to complex. The course makes a details comparison of the systematic study of different taxa of Non-chordate. It enlightens how each group of organisms arose and how did they establish themselves in the environment with their special characteristics. It also deals with the differences and similarities between organisms on the basis of their morphology and an anatomy which led to their grouping into taxa and clades.

COs:

Upon completion of this course successfully, students would be able to

1. know what the chordates are.
2. Learn about the different phylum of chordates.
3. confidently explain the general characters and classification of Protochordates upto class Mammalia.
4. understand the level of organization in chordate.
5. explain the origin and evolutionary relationship in different subphylums of chordates.
6. describe specific features of Protochordates upto class Mammalia.
7. recognize and differentiate life functions of Protochordates upto class Mammalia.
8. understand Migration in fishes and birds , parental care in Amphibians and Poisonous and non-poisonous snakes.
9. explain the adaptations in Birds and Mammals.

Program Specific Outcomes: (CGS)

PSO1 .Demonstrated a broad understood of animal diversity, including knowledge of the scientific classification and evolutionary relationships of major groups of animals.

PSO2 .Recognized the relationships between structure and functions at different levels of biological organization (e.g., molecules, cells, organs, organisms, populations, and species) for the major groups of animals.

PSO3. Characterized the biological, chemical, and physical features of environments (e.g., terrestrial, freshwater, marine, host) that animals inhabit. Explained how animals function and interact with respect to biological, chemical and physical processes in natural and impacted environments.

PSO4. Explained how organisms function at the level of the gene, genome, cell, tissue, organ and organ-system. Drawing upon this knowledge, they are able to give specific examples of the physiological adaptations, development, reproduction and behavior of different forms of life.

PSO5 .Understood the applied biological sciences or economic Zoology such as sericulture, Apiculture, aquaculture, Industrial microbiology, r DNA technology and medicine for their career opportunities.

PSO6.Understand the nature and basic concepts of cell Biology, Biochemistry, Taxonomy and ecology.

PSO7 .Analyse the relationship among animal, plants and microbes.

PSO8. Understand the application of biological sciences in Apiculture ,Aquaculture and Medicine.

Name of the programme: B.Sc. II

Class : Part II Semester :III

Name of the course (Paper): Life and diversity of Chordata and concept of Evolution Course

Outcomes

- 1.Obtained the knowledge about direct observation of fossils and evolutionary important specimen by which evolutionary relationship of animal groups.
- 2.Imparted the knowledge on ecology of some important fishes, amphibians reptiles, Birds and mammals.
3. Understand Migration in fishes and birds.
4. parental care in Amphibians and Poisonous and non-poisonous snakes.

5. Explain the adaptations in Birds and Mammals.
6. Impart knowledge in comparative anatomy and development systems of chordates.
7. Make able to discuss some and very important phenomena in Chordates.
8. Know about the conservation and management strategies of the chordate fauna.

Name of the programme: B.Sc. II

Class : Part II S Semester :IV

Name of the course (Paper): Advanced genetics and animal ecology

Course Outcomes

1. Understood the inheritance of mendelian traits by direct observation among students
2. Understood the theories of classical genetics and blood group inheritance in man
3. Described the genetic variation through linkage and crossing over, chromosomal aberrations and sex determination.
4. Understood the genetic defects and inborn errors of metabolism and genetic counselling and role of inbreeding and outbreeding.
5. Understood the molecular structure of genetic materials and understood the mechanism of gene expression and regulation character formation.
6. Understood of the mechanism of phenotypic expression in Drosophila.
7. Gained genetic knowledge on the observation of specimens and models.

Name of the programme: B.Sc. III

Class : Part III Semester :V

Name of the course (Paper): Animals physiology and Economic Zoology

Course Outcomes

1. Understood about the composition of food and mechanism of digestion absorption and assimilation.
2. Attained knowledge of respiration and excretion and understood the mechanism of

transport of gases and urine formation.

3. Described the mechanism of circulation and composition of blood
4. Knowledge of neuromuscular coordination and the mechanism of osmoregulation in animals and endocrine system and their function is attained.
5. Understood the menstrual cycle and the role of contraceptive in population control.
6. Knowledge of neurotransmitter and the mechanism of thermoregulation in animals.

Name of the programme: B.Sc. III

Class : Part III Semester :VI

Name of the course (Paper):Molecular Biology and Biotechnology

Course Outcomes

1. Acquired knowledge skill development and observation of blood group identification and pedigree chart preparations.
2. Through this course the students are exposed to importance of biological macromolecules
3. Students learn about transgenic animal, their application in pharmaceutical industry, cloning and its importance.
4. The students learns about molecular basis of antigen recognition, hypersensitivity reaction, antigen-antibody reactions
5. This course prepares the students in appreciating the its benefits and applications in biotechnological, pharmaceutical, medical and agricultural field
6. The course outcome is to train the students in understanding genetics and relate modern DNA technology for disease diagnostics and therapy.

Programme : Master of Arts English

PROGRAMME OUTCOME (POs)

- 1) To educate students in English literary and critical writing with a view to enable them to probe literary & critical theories & contexts that require substantive expertise in literature.
- 2) To develop and foster ideological sense and a sense of social awareness and cultural understanding.

- 3) To acquire proficiency in expression skills and critical thinking skills through exposure to various forms & genre of writing.
- 4) To develop research, critical and analytical attitude & approach in the students.
- 5) To help emerge social thinkers & critics who can take up a study of various social problems and issues that ail the society and impede social change and progress and contribute to the process of social transformation and social progress.
- 6) To help grow great leaders, thinkers, artists, visionaries, pundits / experts, educationists, managers, consultants, guides, coaches, social analysts, reformers, social activists, social pleaders & crusaders, think-tanks, journalists, critical and creative writers professionally in various fields of knowledge.

COURSE OUTCOMES (COs)

- 1) The students would acquire critical attitude and approach and gain knowledge, intellectual competence and critical scholarship which would help them to improve their performance in competitive exams like MPSC/UPSC/NET/SET in the subject.
- 2) The student will be able to understand and apply the evocative power of language and would be able to apply critical insight and judgment to form an informed and impactful opinion.
- 3) The Student will be fairly acquainted with the background and socio-political as well cultural background of the poets and understand the factors behind their making and evolution. The student will grasp the distinctive writing style and technique of various poets & creative writers.
- 4) The student will acquire enhanced sensibility and emotional depth and maturity in his/her expression.
- 5) The student will understand the socio-political and cultural importance of Literature and Literary Criticism.
- 6) The Course would help emerge social thinkers & critics who can take up various social problems and issues that ail the society and impede social change and progress and thus to achieve social transformation and social progress.

EMPLOYMENT POTENTIAL

The programme aims to enable the students in developing ways of expression in a variety of forms & texts. It would provide them number of novel Employment and commercial opportunities in the Writing & Publishing field along with equipping them to meaningfully and substantially contribute to intellectual debates, social and public discourse and social & industrial movements. As it aims

to build and boost the imaginative and critical thinking skills and potential of the students, it can be very usefully and fruitfully utilised in the Print & Social Media, Advertising, Film & Entertainment Industry etc. if suitably supplemented with other related specialisation and knowledge. With scope for development of leadership quality & managerial skills, there is a good possibility to apply literary & critical thinking ability and soft skills acquired through this Course to a great effect in the fields of Management, Art & Culture, Fashion, Archaeology, General Administration as well as in the NGOs and Socio-political fields. Its lofty vision is to produce influential literati such as social thinkers, historians, eminent critics & commentators who can take up a deep and serious study and exploration of various social & industrial problems and issues that impede the process of wholesome social change and progress. Through erudition, observation, Research & Analysis, the Course study can help predominant spread of social understanding & awareness towards achieving the sublime goal of overall social transformation and Nation-building.

SEMESTER-I

Code of the Course/Subject: DSCENG101 History of English Literature

Title of the Course/Subject :History of English Literature -1 (DSC)

Programme Specific Outcomes (PSOs-1) –

- 1) To develop a sense of history through understanding of major traditions, trends, conventions, fashions as well as social developments.
- 2) To facilitate insight into social norms and culture that the causes and consequences of human actions and dispositions.
- 3) To study the emergence and development of Renaissance and its influence on the English society.
- 4) To assimilate the values and principles that lead to progress and social well-being

Course Outcome (Cos-1):

- 1) To gain critical understanding and insight into the phenomenon of Renaissance
- 2) Understanding the factors behind the emergence of Shakespeare as a great dramatist
- 3) To critically analyse the chronology of events that led to the rise and glory of Elizabethan Literature
- 4) To improve one's performance in competitive exams like MPSC/UPSC/NET/SET

Course/Subject DSCENG102 Literary Criticism – 1

Title of the Course/Subject Literary Criticism – 1

Programme Specific Outcomes (PSOs- 2)

- 1) To enhance aesthetic understanding
- 2) To develop critical, analytical and logical thinking and judgment
- 3) To grasp and assimilate critical temper and insight
- 4) To appreciate and analyse critical texts and documents
- 5) To apply logic and sense of discrimination in decision-making

Course Outcome (Cos-2):

- 1) To be able to write critical review
- 2) To analyse and interpret texts
- 3) To compare and contrast different ideas
- 4) To apply critical sense and judgment to form an informed opinion
- 5) Acquisition of critical attitude

Code of the Course/Subject DSEENG103 Poetry – 1 (DSE)

Title of the Course/Subject Poetry – 1 (DSE)

Programme Specific Outcomes (PSOs- 3)

- 1) To enhance artistic sensibility for word-music and critical appreciation of Poetry as an Art.
- 2) To develop fertile imaginativeness and emotional depth and maturity.
- 3) To perceive subtle nuances and shades of meaning in the use of language.
- 4) To appreciate and assimilate suggestive and pictorial quality of language.
- 5) To sharpen artistic and critical skills with better grasp and acquisition of qualities like picturesqueness, terseness, conciseness, accuracy, aptness, freshness etc. in expression.
- 6) To explore the subjective nature of Truth and Beauty.

Course Outcomes (Cos-3)

1. The Student will be able to critically appreciate and interpret a piece of poetic work.
2. The Student will be fairly acquainted with the background and socio-political as well cultural background of the poet and understand the factors behind his making and evolution.
3. The student will grasp the distinctive poetic style and technique of various poets.
4. The student will understand the socio-political and cultural importance of Poetry and Poetic art.
5. The student will be able to quote the memorable quotations in his speech and writing.

6. The student will be able to understand and apply the evocative power of language.
7. The student will understand and appreciate the subjective nature of Truth and Beauty.
8. The student will acquire enhanced sensibility and emotional depth and maturity in his/her expression.

Code of the Course/Subject DSEENG105 Fiction (DSE)

Title of the Course/Subject Fiction (DSE)

Programme Specific Outcomes (PSOs- 5):

- 1) To enhance artistic sensibility for word and critical understanding of Novel as an art form.
- 2) To understand cultural and social importance of Novel as a genre from various chronological ages of English literature.
- 3) To acquire comprehensive understanding of plot construction and art of characterisation.
- 4) To enhance emotional depth and maturity as well as existential understanding of life.
- 5) To understand and assimilate the laws and principles of fiction writing.
- 6) To acquire insight and understanding of the mysteries and ironies of human life.

Course Outcomes (Cos -5)

1. The Student will be able to critically appreciate and analyse a piece of fictional writing.
2. The Student will be fairly acquainted with the background and socio-political as well cultural background of the novelist and understand the factors behind his making.
3. The student will grasp the distinctive writing style and technique of various novelists.
4. S/he will understand the socio-political and cultural importance of Novel writing.
5. S/he will be able to quote the memorable quotations in his speech and writing and acquire artistic expression skill.
6. S/he acquire insight and understanding of the mysteries and ironies of human life.

Semester II

Code of the Course/Subject : DSCENG201 History of English Literature -2 (DSC)

Title of the Course/Subject History of English Literature -2 (DSC)

Programme Specific Outcomes (PSOs- 6)

- 1) To develop a sense of history through understanding of major traditions, trends, conventions, fashions as well as social developments.
- 2) To facilitate insight into human nature as well as understanding of social norms and culture.

- 3) That the causes and consequences of human actions and dispositions.
- 4) To study the emergence and development of Renaissance and its influence on the English society.
- 5) To assimilate the values and principles that lead to progress and social well-being.

Course Outcome (Cos- 6):

- 1) The student will attain a sense of history and the impulses behind human action.
- 2) To gain critical understanding and insight into trends & fashion in English society and culture.
- 3) Understanding the factors behind the emergence of John Milton as well as other post-Shakespearean writers and value and significance of their literary output.
- 4) To critically analyse the chronology of events that led to the rise and growth of post Shakespearean writers.
- 5) To create good critical thinkers and writers.

Code of the Course/Subject DSCENG201 History of English Literature -2 (DSC)

Title of the Course/Subject History of English Literature -2 (DSC)

Programme Specific Outcomes (PSOs- 6)

- 1) To develop a sense of history through understanding of major traditions, trends, conventions, fashions as well as social developments.
- 2) To facilitate insight into human nature as well as understanding of social norms and culture.
- 3) That the causes and consequences of human actions and dispositions.
- 4) To study the emergence and development of Renaissance and its influence on the English society.
- 5) To assimilate the values and principles that lead to progress and social well-being.

Course Outcome (Cos- 6):

- 1) The student will attain a sense of history and the impulses behind human action.
- 2) To gain critical understanding and insight into trends & fashion in English society and culture.
- 3) Understanding the factors behind the emergence of John Milton as well as other post-Shakespearean writers and value and significance of their literary output.
- 4) To critically analyse the chronology of events that led to the rise and growth of post Shakespearean writers.
- 5) To create good critical thinkers and writers.

Code of the Course/Subject DSCENG

Literary Criticism- 2 (DSC)

Programme Specific Outcomes (PSOs- 7)

- 1) To enhance aesthetic understanding and expression skills.
- 2) To develop critical, analytical and logical thinking and judgment.
- 3) To grasp and assimilate critical temper and insight.
- 4) To appreciate and analyse critical texts and documents.
- 5) To apply logic, reasoning and sense of discrimination in decision-making.
- 6) To grow in erudition and intellectual scholarship.

Course Outcome (Cos - 7):

- 1) The student be able to write critical and scholarly reviews and articles.
- 2) The student analyse and interpret texts and grasp subtle and deep meaning embedded in the texts.
- 3) The student compare and contrast different ideas logically and rationally.
- 4) The student apply critical sense and judgment to form an informed opinion.
- 5) The student will acquire critical attitude and approach.
- 6) The student will acquire knowledge, intellectual competence and critical scholarship.

Code of the Course/Subject DSCENG203

Title of the Course/Subject Poetry – 2 (DSE)

Programme Specific Outcomes (PSOs- 8)

- 1) To enhance artistic sensibility for sounds or word-music and critical appreciation of Poetry as an Art.
- 2) To develop fertile imaginativeness and emotional depth and maturity.
- 3) To perceive subtle nuances and shades of meaning in the use of language.
- 4) To appreciate and assimilate subtle, suggestive and pictorial quality of language.
- 5) To sharpen artistic and critical skills with better grasp and acquisition of qualities like picturesqueness, terseness, conciseness, accuracy, aptness, freshness *etc.* in expression.
- 6) To acquire the ability to read between the lines.
- 7) To appreciate and acquire the evocative power of language.
- 8) To explore the subjective nature of Truth and Beauty.

Course Outcomes (Cos- 8)

1. The Student will be able to critically appreciate and interpret a piece of poetic work.
2. The Student will be fairly acquainted with the background and socio-political as well cultural background of the poet and understand the factors behind his making and evolution.
3. The student will grasp the distinctive poetic style and technique of various poets.
4. The student will understand the socio-political and cultural importance of Poetry and Poetic art.
5. The student will be able to quote the memorable quotations in his speech and writing.
6. The student will be able to understand and apply the evocative power of language.
7. The student will understand and appreciate the subjective nature of Truth and Beauty.
8. The student will acquire enhanced sensibility and emotional depth and maturity in his/her expression.

Code of the Course/Subject DSEENG205**Title of the Course/Subject Non-Fiction****Programme Specific Outcomes (PSOs - 10)**

- 1) To educate students in English with a view to enable them to probe literary & critical theories & contexts that require substantive expertise in literature.
- 2) To foster ideological sense and a sense of social awareness and social understanding.
- 3) To acquire proficiency in expression skills and, critical thinking through various forms of writing with a view to contribute to social debates and public discourse.
- 4) To develop research, critical and analytical attitude & approach in the students.
- 5) To help emerge social thinkers & critics who can take up various social problems and issues that ail the society and impede social change and progress and thus to achieve social transformation and social progress.
- 6) To help grow great leaders, thinkers, visionaries, pundits, experts, educators, managers, consultants, guides, coaches, social analysts, reformers, social activists, crusaders, pleaders, journalists, critical and creative writers professionally in various fields of knowledge.

Course Outcomes (Cos - 10):

- 1) The student will be able to write sociological and critical reviews.
- 2) The student will be to analyse and interpret social problems and undertake social projects.

- 3) The student will be to compare and contrast different ideas in public and social discourse.
- 4) The student will be to apply critical sense and judgment to form an informed opinion.
- 5) The student will be to acquire critical understanding and social and environmental awareness.
- 6) The subject will help grow great leaders, thinkers, visionaries, pundits, experts, educators, managers, consultants, guides, coaches, social analysts, reformers, social activists, crusaders, pleaders, journalists, critical and creative writers professionally in various fields of knowledge.

Employment Potential:

- 1) In Print Media and Publishing houses
- 2) In NGOs and Social Service and Social work
- 3) In Socio-Political Organisations and administrative fields.

Semester II Code of the Course/Subject GICENG206 Practical Criticism

Title of the Course/Subject Practical Criticism (OEC-GIC)

Programme Specific Outcomes (PSOs- 11)

- 1) To develop critical, analytical and logical thinking and judgment.
- 2) To grasp and assimilate critical temper and insight.
- 3) To appreciate and analyse critical texts and documents.
- 4) To apply logic, reasoning and sense of discrimination in decision-making.
- 5) To grow in erudition and intellectual scholarship

Course Outcome (COs - 11)

- 1) Student will acquire skill to write critical and scholarly reviews and articles.
- 2) Student will acquire skill to analyse and interpret texts and grasp subtle and deep meaning embedded in the texts.
- 3) Student will acquire skill to compare and contrast different ideas logically and rationally.
- 4) Student will acquire skill to apply critical sense and judgment to form an informed opinion.
- 5) Students will gain skill and competence to perform better in debates, intellectual arguments and Group Discussions and competitive exams.

Employment Potential:

- 1) In Print Media and Publishing houses
- 2) In NGOs and Social Service and Social work
- 3) In Socio-Political Organisations and administrative fields.

4) In the writing and publishing field as well as in Print & Social Media, Advertising, Film & Entertainment Industry (if suitably supplemented with other specialization and knowledge).

SEMESTER-III

1. Name : M.A. English- Semester III

2. Course: Research/Innovative Project (RP)

CO

1. Students will be acquainted with field of Research.
- 2. Students will derive practical experience from Research Work.**
- 3. Research skills will be honed through practical research experience.**
- 4. Students will get motivation for further research work like PhD.**

1) Programme: M.A. English- Semester III

2) Course: History of English Literature - 3 (DSC)

PSO –

1. To develop a sense of history through understanding of major traditions, trends, conventions, fashions as well as social developments.
2. To facilitate insight into human nature as well as understanding of social norms and culture.
3. That the causes and consequences of human actions and dispositions.
4. To study the emergence and development of Renaissance and its influence on the English society.
5. To assimilate the values and principles that lead to progress and social well-being.

Course Outcome (CO):

- 1) The student will attain a sense of history and the impulses behind human action.
- 2) To gain critical understanding and insight into trends & fashion in English society and culture.
- 3) Understanding the factors behind the emergence of John Milton as well as other post-Shakespearean writers and value and significance of their literary output.
- 4) To critically analyse the chronology of events that led to the rise and growth of post-Shakespearean writers.
- 5) To improve one's performance in competitive exams like MPSC/UPSC/NET/SET.
- 6) To create good critical thinkers and writers.

1) Programme: M.A. English- Semester III

2) Course: Critical Theory - 3 (DSC)

PSO–

- 1) To appreciate and analyse critical texts and documents.
- 2) To acquire critical temper, insight and judgment.
- 3) To apply logic, reasoning and sense of discrimination in decision-making.
- 4) To foster erudition and intellectual scholarship.

Course Outcome (CO):

- 1) To be able to write critical and scholarly reviews and articles.
- 2) To analyse and interpret texts and grasp subtle and deep meaning embedded in the texts.
- 3) To compare and contrast different ideas logically and rationally.
- 4) To apply critical sense& competence and critical scholarship to form an informed opinion

Employment Potential:

- 1) In Print Media and Publishing houses
- 2) In NGOs and Social Service and Social work
- 3) In Socio-Political Organisations and administrative fields.

1) Programme: M.A. English- Semester III**2) Course: Indian Writing in English (DSE)****PSO8 –**

- 1) To enhance artistic sensibility for sounds or word-music and critical appreciation of Poetry as an Art.
- 2) To develop fertile imaginativeness and emotional depth and maturity.
- 3) To perceive subtle nuances and shades of meaning in the use of language.
- 4) To appreciate and assimilate subtle, suggestive and pictorial quality of language.
- 5) To sharpen artistic and critical skills with better grasp and acquisition of qualities like picturesqueness, terseness, conciseness, accuracy, aptness, freshness *etc.* in expression.
- 6) To acquire the ability to read between the lines.
- 7) To appreciate and acquire the evocative power of language.
- 8) To explore the subjective nature of Truth and Beauty.

Course Outcomes (CO8s)

1. The Student will be able to critically appreciate and interpret a piece of poetic work.
2. The Student will be fairly acquainted with the background and socio-political as well cultural background of the poet and understand the factors behind his making and evolution.

3. The student will grasp the distinctive poetic style and technique of various poets.
4. The student will understand the socio-political and cultural importance of Poetry and Poetic art.
5. The student will be able to quote the memorable quotations in his speech and writing.
6. The student will be able to understand and apply the evocative power of language.
7. The student will understand and appreciate the subjective nature of Truth and Beauty.
8. The student will acquire enhanced sensibility and emotional depth and maturity in his/her expression.

Employment Potential:

1. In Print Media and Publishing houses
2. In NGOs and Social Service and Social work
3. In socio-political field and in film, advertising and Entertainment industry.

1) Programme: M.A. English- Semester III

2) Course: American Literature (DSE)

PSO –

1. To enhance artistic sensibility for sounds or word-music and critical appreciation of Poetry as an Art.
2. To develop fertile imaginativeness and emotional depth and maturity.
3. To perceive subtle nuances and shades of meaning in the use of language.
4. To appreciate and assimilate subtle, suggestive and pictorial quality of language.
5. To sharpen artistic and critical skills with better grasp and acquisition of qualities like picturesqueness, terseness, conciseness, accuracy, aptness, freshness *etc.* in expression.
6. To acquire the ability to read between the lines.
7. To appreciate and acquire the evocative power of language.
8. To explore the subjective nature of Truth and Beauty.

Course Outcomes (CO)

1. The Student will be able to critically appreciate and interpret a piece of poetic work.
2. The Student will be fairly acquainted with the background and socio-political as well cultural background of the poet and understand the factors behind his making and evolution.
3. The student will grasp the distinctive poetic style and technique of various poets.
4. The student will understand the socio-political and cultural importance of Poetry and Poetic art.
5. The student will be able to quote the memorable quotations in his speech and writing.

6. The student will be able to understand and apply the evocative power of language.
7. The student will understand and appreciate the subjective nature of Truth and Beauty.
8. The student will acquire enhanced sensibility and emotional depth and maturity in his/her expression.

Employment Potential:

1. In Print Media and Publishing houses
2. In NGOs and Social Service and Social work
3. In socio-political field and in film, advertising and Entertainment industry.

1. Programme: M.A. English- Semester III

2. Course: Creative Writing (SEC)

PSO –

1. To assimilate and apply principles and laws of creative writing.
2. To develop creative and aesthetic attitude & approach to expression.
3. To appreciate and analyse creative writing and works of art.
4. To acquire growth in erudition and intellectual scholarship.

Course Specific Outcome (CSO) –

- 1) Students will assimilate and apply principles and laws of creative writing.
- 2) Students will develop creative and aesthetic attitude & approach to expression.
- 3) Students will appreciate and analyse creative writing and works of art.
- 4) Students will acquire growth in erudition and intellectual scholarship.
- 5) Students will gain skill and competence to perform better in debates, intellectual arguments, discourses, Group Discussions and in competitive exams.

Employment Potential:

1. In Print Media and Publishing houses
2. In NGOs and Social Service and Social work
3. In socio-political field and in film, advertising and Entertainment industry.

1. Name : M.A. English- Semester IV

2. Course: Research/Innovative Project (RP)

CO

1. Students will be acquainted with field of Research.
2. Students will derive practical experience from Research Work.

3. Research skills will be honed through practical research experience.

4. Students will get motivation for further research work like PhD.

M.A. ENGLISH SEMESTER IV

1) Course: History of English Literature - 4 (DSC)

PSO –

1. To develop a sense of history through understanding of major traditions, trends, conventions, fashions as well as social developments.
2. To facilitate insight into human nature as well as understanding of social norms and culture.
3. To study the causes and consequences of human actions and dispositions.
4. To study the emergence and development of origin, nature and development of recent trends in English literature.
5. To assimilate the values and principles that lead to social progress and social well-being.

Course Outcome (CO):

1. The student will attain a sense of history and the impulses behind human action.
2. Students would gain critical understanding and insight into trends & fashion in English society and culture.
3. Students would gain an understanding of the emergence and development of origin, nature and development of recent trends in English literature.
4. Students performance in competitive exams like MPSC/UPSC/NET/SET would improve.
5. Students would emerge as good scholars and thinkers.

1. Course: Critical Theory - 1 (DSC)

PSO–

1. To appreciate and analyse critical texts and documents.
2. To acquire critical temper, insight and judgment.
3. To apply logic, reasoning and sense of discrimination in decision-making.
4. To foster erudition and intellectual scholarship.

Course Outcome (CO):

1. To be able to write critical and scholarly reviews and articles.
2. To analyse and interpret texts and grasp subtle and deep meaning embedded in the texts.
3. To compare and contrast different ideas logically and rationally.

Employment Potential:

1. In Print Media and Publishing houses
2. In NGOs and Social Service and Social work
3. In Socio-Political Organisations and administrative fields.

1. Programme: M.A. English- Semester IV

2. Name of the Course: Colonial and Post Colonial Literature (DSE)

PSO –

1. To develop fertile imaginativeness and emotional depth and maturity.
2. To perceive subtle nuances and shades of meaning embedded in the Colonial & Post colonial writing.
3. To appreciate and assimilate subtle, suggestive and pictorial quality of language.
4. To sharpen artistic and critical skills with better grasp and acquisition of qualities like picturesqueness, terseness, conciseness, accuracy, aptness, freshness etc.in expression.

Course Outcomes (COs)

1. The Student will be able to critically appreciate and interpret a piece of poetic work.
2. Students' would be able to acquire fertile imaginativeness and emotional depth and maturity.
3. Students' would be able to perceive subtle nuances and shades of meaning embedded in the Colonial & Post colonial writing.
4. Students' would be able to appreciate and assimilate subtle, suggestive and pictorial quality of language.
5. Students' would be able to acquire artistic and critical skills with better grasp and acquisition of qualities like picturesqueness, terseness, conciseness, accuracy, aptness, freshness etc.in expression.

Employment Potential:

1. In Print Media and Publishing houses
2. In NGOs and Social Service and Social work
3. In socio-political field and in film, advertising and Entertainment industry.

5. Name :M.A. English- Semester IV

6. Course: Alternative Literature (DSE)

PSO –

1. To enhance artistic sensibility for sounds or word-music and critical appreciation of Poetry as an Art.

2. To develop fertile imaginativeness and emotional depth and maturity.
3. To perceive subtle nuances and shades of meaning in the use of language.
4. To appreciate and assimilate subtle, suggestive and pictorial quality of language.
5. To sharpen artistic and critical skills with better grasp and acquisition of qualities like picturesqueness, terseness, conciseness, accuracy, aptness, freshness *etc.* in expression.
