Pandemic Pandemonium to Social Equilibrium: The Role of Literature

Date: 31st May 2020

About the College

Smt Radhabai Sarda, a multi-faculty, grant-in-aid institution, offering UG, PG and PhD programmes, affiliated to Sant Gadge Baba Amravati University, Amravati was started by Shri Sarda Education Society with a vision to make higher education available to the underprivileged sections of society in the vicinity of Anjangaon Surji. It has three major streams- Arts, Commerce & Science with a distance mode centre of YCMO University, Nasik and HSC (Voc.). The competent, efficient, dedicated and well qualified staff with the highest academic degree, a far-sighted visionary management and good infrastructure have contributed to making it an excellent centre of higher education. Keeping in mind the contemporary global and national context, the college strives continuously to make success a way of life not only in academics but also in extra-curricular activities. It has always been the prime focus of the college to provide students the best possible ambience for learning and personality development. Since its inception, the college has been instrumental in catering to a variety of educational interests and aspirations of the people of the area. Today, the college is recognised as one of the well-known centres of higher education in this rural area of Amravati district.

The Department of English was established with the inception of the college in 1966. At present, the department with seven vibrant and enthusiastic faculty members is one of the largest departments of English in Sant Gadge Baba Amravati University, Amravati. The department has a rich research output with many books, research papers and audio-visual learning aids. PhD supervisors of the department have proved their academic mettle and literary insight by successfully guiding more than twenty-five research scholars who have been awarded PhD and many research scholars are still pursuing their research at the Research Centre of the department. The Board of Studies of English of the University is providing academic leadership through curriculum designing, research and quality measures in evaluation system under the Chairmanship of one of its faculty members.

Concept of the Conference

Literature reflects life as it has been and makes speculations about how it should be. The basic functions of literature are to inform, to entertain, to give pleasure and to develop and deepen the understanding of the complexities of human nature and human life as a whole. Literature has had a major impact on the development of society. It has shaped civilizations, changed political systems and exposed injustice from time to time. It gives a detailed preview of human experience, allowing us to connect on basic levels of desires and emotions. It brings us face to face with different shades of human nature through tragedy and romance, joy and sorrow, in epiphanies and denials, in moments of heroism, conflicts and crises. At the same time, we have witnessed the fact that in the moments of utter misery, desperation, helplessness, tribulations, distress and agony, literature has always functioned as a loving, soothing comforter allaying our fears, anxieties, apprehensions, panics, confusions and dread caused by man-made or natural crises threatening the existence of human life.

Many wars, floods, earthquakes, draughts, epidemics and pandemics have always resulted in huge loss of human life, posing challenges to the peaceful human existence. In such dismal circumstances also literature has stood by us to comfort the afflicted souls and strengthen human morale to overcome the crises.

These days COVID-19 has also descended on us as a global catastrophe. The lockdowns imposed by the government have restricted the freedom of movements only to the four walls of the houses. It has given rise to many physical, emotional and mental disorders so much so that maintaining social equilibrium has become quite difficult.

In such a threatening and critical situation this International e-Conference intends to engage the academic fraternity to explore the role of literature from pandemic pandemonium to the restoration of social equilibrium as it has played in the past and it will play in the present crisis also.
