### **About the College**

Smt Radhabai Sarada, a multi-faculty, grant-in-aid institution, offering UG, PG and PhD programmes, affiliated to Sant Gadge Baba Amravati University, Amravati was started by Shri Sarada Education Society with a vision to make higher education available to the underprivileged sections of society in the vicinity of Anjangaon Surji. It has three major streams- Arts, Commerce & Science with a distance mode centre of YCMO University, Nasik and HSC (Voc.). The competent, efficient, dedicated and well-qualified staff with the highest academic degree, a far-sighted visionary management and good infrastructure have contributed to making it an excellent centre of higher education. Keeping in mind the contemporary global and national context, the college strives continuously to make success a way of life not only in academics but also in extra-curricular activities. It has always been the prime focus of the college to provide students the best possible ambience for learning and personality development. Since its inception, the college has been instrumental in catering to a variety of educational interests and aspirations of the people of the area. Today, the college is recognised as one of the well-known centres of higher education in this rural area of Amravati district in Maharashtra.

The Department of Computer Science was established in the year 2006 with the inception of Science Faculty. Presently, it has two faculty members, both are pursuing their research works. It has a well-equipped computer laboratory with latest configurations and fast-reliable computer networks of more than 30 nodes. The department is highly committed towards quality teaching and project

development in advance areas of Computer Science. It is also dedicated to preparing the students and equip them for successful corporate careers.

### **Concept of e-Conference**

Information Technology could not prevent the onset of the COVID-19 Pandemic; however, it can now educate, warn and empower those on the ground to be aware of the situation and noticeably lessen the impact. By using technologies like Artificial Intelligence, Machine Learning, Robotics, Cloud, Mobile and High-Speed Internet, it has become possible to launch several innovative approaches to tackle the severity of the Pandemic.

With the outbreak of COVID-19 Pandemic, the whole world started racing in search of drugs and vaccines to prevent it. The world is desperate to find a way to slow the spread of the coronavirus and to find an effective treatment. Information Technology is effective in boosting the process of finding the solutions at the earliest. Artificial Intelligence is playing important role in suggesting components of a vaccine by understanding viral protein structure and helping medical researchers.

In such a threatening and vicious situation, this National e-Conference on ***The Impact and Role of Information Technology: COVID-19 Pandemic*** intends to engage the academic fraternity to explore the possibilities of the earliest solutions through the application of Information Technology.
