Concept of e-Conference

The COVID-19 Pandemic has brought all the drastic changes in the socio-economic scenario in the world. The Indian government has imposed lockdown since three months which has disordered the whole cycle of Indian economy. Every sector from agriculture to industry and from transportations to tourism have been affected very severely. Unemployment is perhaps the most crucial problem created by this pandemic. The problem of recession is also another grave issue before the government. Because of the mass exodus of the labourers, the industries are facing new challenges.

To discuss all these burning issues and to seek solutions, to cope with these problems, the department of Economics organises a National e-Conference on the topic, *Collapse of the Indian Economy and Crisis of Unemployment during COVID-19*. This is a humble attempt by the department to provide a platform for elaborate deliberations and discussions among the intellectuals on this grave situation created by COVID-19 Pandemic.
