About the College

Smt Radhabai Sarde, a multi-faculty, grant-in-aid institution, offering UG, PG and PhD programmes, affiliated to Sant Gadge Baba Amravati University, Amravati was started by Shri Sarda Education Society with a vision to make higher education available to the underprivileged sections of society in the vicinity of Anjangaon Surji. It has three major streams- Arts, Commerce & Science with a distance mode centre of YCMO University, Nasik and HSC (Voc.). The competent, efficient, dedicated and well qualified staff with the highest academic degree, a far-sighted visionary management and good infrastructure have contributed to making it an excellent centre of higher education. Keeping in mind the contemporary global and national context, the college strives continuously to make success a way of life not only in academics but also in extra-

curricular activities. It has always been the prime focus of the college to provide students the best possible ambience for learning and personality development. Since its inception, the college has been instrumental in catering to a variety of educational interests and aspirations of the people of the area. Today, the college is recognised as one of the well-known centres of higher education in this rural area of Amravati district.

The Department of Home-Economics was established with the inception of the college in 1966. The department has two faculties with doctorate degrees, of which one is PhD supervisor of SGBAU, Amravati. Both of them are on the Board of Studies in Home-Economics of Sant Gadge Baba Amravati University, Amravati. And one of them is the Chairperson of the Board of Studies. The subject also has a recognised Research Centre of SGBAU, Amravati. It has a rich research output with many books, research papers and audio-visual learning aids. Every year a good number of students pass out with good grades in the subject.

Speakers

Concept of e-Conference

The challenges confronting the world due to this unprecedented COVID-19 pandemic have brought to the fore the inadequacies of global dimensions. Passing through a series of lockdowns initiated by the government, we have now commenced with the 5.0 Lockdown. Yet, the exploration on the subject shows a dark future sending a fearful chill down the spine.

At par with the spread of the virus the world over, are the mind-boggling circulars which have led to too many prejudices. The proliferation of messages, articles, write-ups in the last two and a half months would probably astonish most of us because of our own preoccupations with all that the people have speculated and written about. With a specific reference to messages leading to misunderstandings as to what to eat and what not to eat has reached the grass root level of consumers. Obviously, the scientific outlook of a proper diet is still far away from the general public who are more interested to read pulp information about their edible foods and lifestyle.

As a nutritionist and dietician of the family, the home-maker explores foods, sometimes online, sometimes traditionally and sometimes experimenting and presenting her culinary preparations to appease the hunger of her family members, both physical and mental. Her explorations lead to serving her loved ones immunity building foods like Vitamin C and a low-fat, adequate calories, but high fibre content. She has to try to wean them away from temptations to indulge in unhealthy snacks.

To avoid obesity, to deal with stress and anxiety ensuing in this untoward pandemic, to generate an awareness regarding diet and exercise, we are holding a National e-Conference on "Crisis of Food and Nutrition during COVID-19 Pandemic".
