### About the College

Smt Radhabai Sardha, a multi-faculty, grant-in-aid institution, offering UG, PG and PhD programmes, affiliated to Sant Gadge Baba Amravati University, Amravati was started by Shri Sardha Education Society with a vision to make higher education available to the underprivileged sections of society in the vicinity of Anjangaon Surji. It has three major streams- Arts, Commerce & Science with a distance mode centre of YCMO University, Nasik and HSC (Voc.). The competent, efficient, dedicated and well-qualified staff with the highest academic degree, a far-sighted visionary management and good infrastructure have contributed to making it an excellent centre of higher education. Keeping in mind the contemporary global and national context, the college strives continuously to make success a way of life not only in academics but also in extra-curricular activities. It has always been the prime focus of the college to provide students the best possible ambience for learning and personality development. Since its inception, the college has been instrumental in catering to a variety of educational interests and aspirations of the people of the area. Today, the college is recognised as one of the well-known centres of higher education in this rural area of Amravati district in Maharashtra.

The college has a spacious two-storied library building with a separate stack room, a reading room for students and staff with all the advanced ICT facilities. It is enriched with around 40000 books, national and international journals, e-journals, magazines, e-magazines, periodicals, e-periodicals, bound

volumes, encyclopedia and lots of e-materials with audio-visual aids generating updated information about competitive examinations. The librarian is a PhD holder as well as a PhD supervisor. The library is armed with seven competent staff. The library automation has been done through online open source software KOHA. It is facilitated with all the ultra-modern technologies like OPAC, N-LIST, Virtual Learning and Network Resource Centre Service.

### Concept of e-Conference

The present COVID-19 Pandemic has brought all the revolutionary changes in the teaching-learning process in higher education. As a result, the role of library is also tremendously changed. There is a mushroom growth in the online learning resources, virtual classes and open access to Information and Technology. The electronic media is rapidly replacing the print media. So, in such an ultra-modern techno savvy age, the library has also the urgent need to equip and update itself with all the recent digital and information services. The aim of this conference is to bring a healthy discussion on such issues among the librarians and the users so that the library would be ready to cater to the needs of the users in the generation next.

With a view to holding and elaborating an intellectual discussion on this topic, our college organises a One Day National e-Conference on ***The Era of Information Technology in Library Science: COVID-19 Pandemic***.
