### **About the College**

Smt Radhabai Sarda, a multi-faculty, grant-in-aid institution, offering UG, PG and PhD programmes, affiliated to Sant Gadge Baba Amravati University, Amravati was started by Shri Sarda Education Society with a vision to make higher education available to the underprivileged sections of society in the vicinity of Anjangaon Surji. It has three major streams- Arts, Commerce & Science with a distance mode centre of YCMO University, Nasik and HSC (Voc.). The competent, efficient, dedicated and well-qualified staff with the highest academic degree, a far-sighted visionary management and good infrastructure have contributed to making it an excellent centre of higher education. Keeping in mind the contemporary global and national context, the college strives continuously to make success a way of life not only in academics but also in extra-curricular activities. It has always been the prime focus of the college to provide students the best possible ambience for learning and personality development. Since its inception, the college has been instrumental in catering to a variety of educational interests and aspirations of the people of the area. Today, the college is recognised as one of the well-known centres of higher education in this rural area of Amravati district in Maharashtra.

The Department of Zoology was established in 2006. At present, it has three enthusiastic faculties. All the three faculty members are academically rich, one of them is a PhD Supervisor of SGBAU Amravati and the other two are pursuing their PhD research works. It has a rich research output with many books, research papers

and audio-visual learning aids. Many students of the department pass out with good grades every year.

### **Concept of e-Conference**

Infectious diseases since time immemorial have ranked with wars and famines as major challenges to human progress and survival. They remain among the leading causes of death and disability worldwide. Among the many challenges to health, infectious diseases stand out for their ability to have a profound impact on the human species. Great pandemics and local epidemics alike have influenced the passage of history, determined the fates of nations and empires, and affected the progress of civilization. Contagious diseases are closely dependent on nature and complexity of human behaviour, since they directly reflect, what we do, and how we live and interact with other people, animals and the environment.

With a view to discuss and elaborate on the above topic, our college is organising a One Day National e-Conference on '*Vicious Circle of Contagious Diseases: COVID-19 Pandemic*' aiming to bring an awareness in the society about infectious diseases in general and COVID-19 in particular which are potentially preventable with personal protection and general public health measures.
