Very good teaching.

Amazing experience of teaching, learning in my institute

Try to reach every student and ask for their doubts.

1)Prioritize student relationships. 2) Start small, think big. 3) Improved Collaboration.

Useful

Plz give the facility in our clg our courses

Some teachers are not good

Teachers should give lectures at regular times

Satisfaction

1)Use better graphics and visual media engage students well,2) try to reach every student and ask for their doubts, 3)make teaching a two way interaction.

Ho..humne. Nihmit abhays Kiya to mhe ache prkar ne mark milge. Ho hme smj nahi aata to ho sir se puche..

It is very beautiful teacher andthe beautiful stap and colleag

Try to teach every student and solving there douts

Need to focus on overall development , guide students, interact to student

You can learn better that what you teach

Observation/Suggestion 1: Implement Active Learning Strategies One observation to improve the overall teaching-learning experience in your institution is to implement active learning strategies. Active learning engages students in the learning process by encouraging them to participate, interact, and apply knowledge actively. This can be done through group discussions, problem-solving activities, case studies, hands-on experiments, and projects. By incorporating active learning strategies, students can develop critical thinking, problem-solving, and collaboration skills, leading to a more effective and engaging learning experience. Suggestion 2: Foster a Supportive and Inclusive Learning Environment Creating a supportive and inclusive learning environment is crucial for enhancing the teaching-learning experience. It is important to ensure that all students feel valued, respected, and supported in their educational journey. This can be achieved by promoting open communication, encouraging diverse perspectives, and providing equal opportunities for all students to participate. Additionally, incorporating culturally responsive teaching practices and incorporating inclusive materials and resources can help meet the needs of diverse learners. By fostering a positive and inclusive learning environment, students will be more motivated, engaged, and willing to actively participate in their education. Suggestion 3: Utilize Technology for Enhancing Learning

Another observation to enhance the teaching-learning experience is to utilize technology effectively. Technology can serve as a powerful tool to facilitate learning, promote collaboration, and engage students in innovative ways. Explore the integration of educational apps, online learning platforms, multimedia resources, and interactive tools to supplement classroom instruction. Additionally, consider providing students with access to digital resources, such as e-books, online databases, and virtual simulations. By incorporating technology, you can create a more dynamic and interactive learning environment, catering to the digital-native generation and preparing them for the future. Remember that these suggestions should be tailored to the specific context and needs of your institution, and it's important to involve educators, administrators, and students in the decision-making process to ensure successful implementation.

First teacher can understand the mentality of students

All teachers are good learning and give the 100% effects

Best, support, teaching

Overall is a good Institute

Give them possible opportunity and help students to encourage the challenges

They need to improve there teaching quality,as well as there non teaching staff like librarian, clerk and other computer workers who do not have sense of humour to communicate with students they always talk rude and everytime insult there students. Thank You

Not

1)use better graphics and visual media to engage students well...(2) try to reach every student and ask for their doubts...(3)make teaching a two way interaction.

Better understanding,Helping for handle sechuations and verry good
